**I. INTRODUCTION**

1. DISH Wireless L.L.C. dba Gen Mobile (“DISH Wireless” or the “Company”), by its undersigned counsel, and pursuant to Section 214(e)(2) of the Communications Act of 1934, as amended (the “Act”)<sup>1</sup> and Sections 54.101 through 54.207<sup>2</sup> of the Rules of the Federal Communications Commission (“FCC”),<sup>3</sup> and the rules and regulations of the State Corporation Commission of the State of Kansas (the “Commission”), including Section 66-2008(b) of the Kansas Statute Annotated, hereby submits this first amended Application for Designation as an Eligible Telecommunications Carrier (“ETC”) in the State of Kansas. The original Application for Designation as an ETC in the State of Kansas was filed on March 27, 2023 (the “Original Application”). DISH Wireless hereby submits this amended Application to include additional information and minor edits to the Original Application (hereinafter the “Application”). The

<sup>2</sup> 47 C.F.R. §§ 54.101-54.207.

<sup>3</sup> DISH Wireless files this Application in accordance with the rules adopted by the FCC in the *2012 Lifeline Reform Order*. See *Lifeline and Link Up Reform and Modernization, Lifeline and Link Up, Federal-State Joint Board on Universal Service, Advancing Broadband Availability Through Digital Literacy Training*, WC Docket Nos. 11-42 and 03-109, CC Docket No. 96-45, WC Docket No. 12-23, Report and Order and Further Notice of Proposed Rulemaking, FCC 12-11 (rel. Feb. 6, 2012) (“*2012 Lifeline Reform Order*”).

Company seeks ETC designation for the limited purpose of providing Lifeline service under the brand name “Gen Mobile” to qualifying Kansas consumers, including those consumers residing on federally recognized Tribal lands.<sup>4</sup>

2. As demonstrated herein, and as certified in Exhibit 1 to this Application, the Company meets all the federal and state statutory and regulatory requirements for designation as an ETC in Kansas. Grant of this Application, moreover, would advance the public interest because it would enable the Company to commence much needed Lifeline services to low-income Kansas residents as soon as possible. Accordingly, the Company respectfully requests that the Commission expeditiously approve this Application.

3. All correspondence, communications, pleadings, notices, orders and decisions relating to this Application should be addressed to:

## II. COMPANY OVERVIEW

4. DISH Wireless L.L.C. is a Colorado limited liability company with a principal address at 9601 S. Meridian Blvd, Englewood, CO 80112. DISH Wireless provides, among other things,

---

<sup>4</sup> DISH Wireless will seek reimbursement from the federal Universal Service Fund (“USF”) and the Kansas USF (“KUSF”). Given that DISH Wireless only seeks support from the low-income program and does not seek any high-cost support, ETC certification requirements for the high-cost program are not applicable to the Company.

resold wireless telecommunications services in Kansas and other states, using the Gen Mobile brand name and other brand names.

5. DISH Wireless' parent company, DISH Network Corporation ("DISH Network"), is a connectivity company headquartered in Colorado that has served as a disruptive force in the pay-TV market since 1980. In 2020, DISH Wireless entered the retail wireless business by acquiring the Boost Mobile brand and in 2021, acquiring the Gen Mobile brand as well as other brands and customer assets. Now, using its own licensed wireless spectrum assets, DISH Wireless is building the nation's first virtualized, cloud-native, Open RAN-based 5G broadband network. To facilitate the buildout, DISH Wireless has entered into multi-year agreements with over 30 partners, including Mavenir, Amazon, Dell, CISCO, VM Ware, IBM, Oracle, Nokia, Fujitsu, MTI, Intel, Altostar, Samsung, and Qualcomm. Because DISH Wireless is actively constructing wireless facilities around the country, it is well positioned to identify opportunities to target buildouts in underserved areas.

6. Even as the 5G network is under construction, DISH Wireless has already been competing in the retail wireless space and is an approved provider in the Federal Communications Commission's Affordable Connectivity Program ("ACP"). Under the Gen Mobile and other brand names, DISH Wireless currently uses partner wireless facilities to provide discounted mobile broadband service in all 50 states and the territories of Washington D.C. and Puerto Rico, including plans bundling voice, text messaging, and broadband services.<sup>5</sup> Available Gen Mobile branded plans include talk, text, and data at various data speeds under the ACP's monthly \$30 subsidy for eligible consumers. DISH Wireless has an application for ETC

---

<sup>5</sup> See 47 C.F.R. § 54.1802(b) ("a bundle of broadband internet access service along with fixed or mobile voice telephony service, text messaging service, or both" is an ACP-eligible plan).

designation pending with the FCC for the states of Alabama, Connecticut, Delaware, Florida, New Hampshire, North Carolina, and the District of Columbia (the “Non-Jurisdictional States”). DISH Wireless is currently designated as a wireless ETC in Colorado, Missouri, New York, Oklahoma, Rhode Island, South Carolina, Tennessee, West Virginia, Wisconsin, and Vermont and authorized by the California Public Utilities Commission to provide California LifeLine service and plans to file for ETC status in other states over time.

7./ DISH Wireless now seeks an ETC designation in Kansas so that it can (i) serve low-income Kansas customers, including those residing on Tribal lands, (ii) supplement the amount of support available to its current ACP customers, and (iii) invite new, underserved customers to benefit from Lifeline and other federal support programs. DISH Wireless’ Lifeline-supported plans will be offered to prepaid customers under the Gen Mobile brand, a recognized and trusted provider in this market segment.<sup>6</sup> Gen Mobile-branded prepaid wireless plans are affordable, easy to use, and attractive to low-income consumers, providing them with connectivity that has become indispensable to participating in 21<sup>st</sup> century society and opportunities. Gen Mobile customers can choose from several affordable prepaid calling plans and handsets and have access to high-quality, responsive customer service. Gen Mobile prepaid plans start as low as \$10 per month and can be refilled at an estimated 10,000 retail locations nationwide.

### **III. THE COMMISSION HAS JURISDICTION OVER DESIGNATION OF WIRELESS ETCS**

8. Section 214(e)(2) of the Act provides state public utility commissions with the primary responsibility for the designation of ETCs.<sup>7</sup> Under the Act, a state public utility

---

<sup>6</sup> A complete description of the Gen Mobile terms, conditions and rates applicable for supported services can be found at <https://www.genmobile.com>.

<sup>7</sup> 47 U.S.C. § 214(e)(2).

commission, like the Commission, with jurisdictional authority over ETC designations must designate a common carrier as an ETC if the carrier satisfies the requirements of Section 214(e)(1). Therefore, the Commission has the authority to designate DISH Wireless as an ETC. As demonstrated below, DISH Wireless fulfills the requirements to be designated as an ETC in Kansas.

#### **IV. THE COMPANY MEETS THE REQUIREMENTS FOR ETC DESIGNATION**

9. An application for ETC designation in Kansas must meet specific federal statutory and regulatory requirements. As demonstrated below, DISH Wireless meets the requirements for ETC designation by the FCC pursuant to Section 214(e)(2) of the Communications Act. These include: (1) a certification that the applicant offers or intends to offer all services designated for support by the FCC pursuant to section 254(c) of the Communications Act; (2) a certification that the applicant offers or intends to offer the supported services on a common carrier basis either using its own facilities or a combination of its own facilities and/or resale of another carrier's services; (3) a description of how the applicant advertises the availability of the supported services and the charges therefor using media of general distribution; (4) a detailed description of the geographic service area for which the applicant requests to be designated as an ETC; and (5) a certification that neither the applicant, nor any party to the application, is subject to a denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988.<sup>8</sup>

10. In addition, an applicant seeking designation as an ETC solely for the purpose of offering Lifeline service must: (1) certify that it will comply with the service requirements applicable to the support that it receives; (2) demonstrate its ability to remain functional in

---

<sup>8</sup> 47 U.S.C. § 214(e)(1) and (5); 47 C.F.R § 54.201(d)(1) and (2); 47 C.F.R § 54.207(a).

emergency situations; (3) demonstrate its ability to satisfy applicable consumer protection and service quality standards; and (4) demonstrate that it is financially and technically capable of providing Lifeline service.<sup>9</sup>

11. Finally, prior to designating a carrier as an ETC, the Commission must determine whether such designation is in the public interest.<sup>10</sup> When making a public interest determination, the Commission considers the benefits of increased consumer choice and the unique advantages and disadvantages of the applicant's service offerings.<sup>11</sup>

**A. DISH Wireless Is a Common Carrier**

12. DISH Wireless provides, among other things, commercial mobile radio services (CMRS) that are regulated pursuant to the common carrier requirements of the Communications Act.<sup>12</sup> Accordingly, the Company meets the common carrier requirement for ETC designation pursuant to Section 214(e)(1) of the Act and Section 54.201(d) of the FCC's rules.

**B. DISH Wireless Will Offer the Services Supported by Federal Universal Service**

13. Pursuant to Section 54.101(a) of the FCC's rules, DISH Wireless' voice service provides the following: (1) voice grade access to the public switched network or its functional equivalent; (2) minutes of use for local service at no additional charge to end users; (3) access to the emergency services provided by local government or other public safety organizations, such

---

<sup>9</sup> 47 CFR § 54.202(a). Section 54.202(a)(ii) requires carriers seeking ETC designation that is not limited to Lifeline service to submit a five-year plan that describes proposed improvements to the carrier's network throughout the proposed service area. Although DISH Wireless is not seeking high cost support in this Application, it is building out its 5G network in accordance with certain FCC-approved construction deadlines as described below.

<sup>10</sup> 47 U.S.C. §214(e)(6); 47 C.F.R. § 54.202(b).

<sup>11</sup> See, e.g., *Virgin Mobile ETC Designation Order in the States of Alabama, Connecticut, Delaware, New Hampshire and the District of Columbia*, WC Docket 09-197, Order, 25 FCC Rcd 17797, 17799, ¶ 6 (WCB 2010).

<sup>12</sup> See 47 U.S.C. § 153(11) (defining a common carrier as "any person engaged as a common carrier for hire, in interstate or foreign communications by wire or radio . . . ."); 47 U.S.C. §332 (c)(1)(A) (treating commercial mobile service providers as common carriers).

as 911 and enhanced 911, to the extent the local government in an eligible carrier's service area has implemented 911 or enhanced 911 systems; and (4) toll limitation services to qualifying low-income consumers.<sup>13</sup> As defined in Section 8.1(b) of the FCC's rules, DISH Wireless also provides broadband internet access service to consumers.<sup>14</sup>

**C. DISH Wireless Will Offer the Services Designated for Support Using a Combination of Its Own Facilities and Resale**

14. DISH Wireless, through the Gen Mobile brand, offers the supported services – voice telephony service and broadband Internet access service – meeting the standards set in the FCC's rules.<sup>15</sup> DISH Wireless is currently providing and will provide mobile voice, text messaging, and broadband services to low-income consumers. The various Lifeline service plans that will be available to qualifying low-income Kansas residents, including those residing on Tribal lands, are described in Exhibit 2.

15. In general, Section 214 requires ETCs to provide services using their facilities, at least in part. DISH Wireless is in a unique position to increase wireless competition and serve low-income consumers, including those residing on Tribal lands. The Company has deployed, and continues to deploy, its advanced nationwide 5G broadband service in over 130 cities (including in Kansas) and currently offers service to more than 70 percent of the U.S. population.<sup>16</sup> In areas of Kansas where service on DISH Wireless' own network is not yet available or where the Company does not yet offer Lifeline products on its own network, DISH

---

<sup>13</sup> 47 C.F.R. § 54.101(a); *see also* 47 U.S.C. § 214(e)(1)(A).

<sup>14</sup> *See* 47 C.F.R. § 8.1(b).

<sup>15</sup> *See* 47 C.F.R. § 54.101(a).

<sup>16</sup> *See* DISH Press Release, The DISH 5G Network is Now Available to Over 70 Percent of the U.S. Population, June 15, 2023. *See also* Applications of American H Block Wireless L.L.C., DBSD Corporation, Gamma Acquisition L.L.C., and Manifest Wireless L.L.C. for Extension of Time, *Order of Modification and Extension of Time to Construct*, DA 20-1072 WT Docket 18-197 (rel. Sept. 11, 2020).

Wireless, including under the Gen Mobile brand, will provide service on a resale basis. This will allow DISH Wireless to immediately introduce new Lifeline options for Kansas consumers as soon as the Commission approves this Application. Accordingly, pursuant to 47 U.S.C. § 214(e)(1)(A) and 47 C.F.R. § 54.101(b), DISH Wireless will offer Gen Mobile-branded services that are designated for federal universal support using a combination of its own facilities and/or resale of another carrier's services. Therefore, DISH Wireless satisfies the applicable facilities-based requirement for ETCs, including in the State of Kansas. Because DISH Wireless meets the facilities-based requirement in Kansas and other states, there is no need for DISH Wireless to obtain an approved FCC Compliance Plan in accordance with the *2012 Lifeline Reform Order*.<sup>17</sup>

**D. DISH Wireless Will Provide Gen Mobile-Branded Service Throughout Its Designated Service Area**

16. Pursuant to 47 U.S.C. § 214(e)(1) and 47 C.F.R. § 54.201(d), as an ETC, DISH Wireless will provide service in the same 50-state footprint where it currently offers ACP service – this includes the entire geographic boundary of the State of Kansas subject to coverage limits of underlying carriers and DISH Wireless' own network. Further, pursuant to 47 C.F.R. § 54.202(a)(1)(i), the Company commits to provide service throughout its proposed service area on a timely basis to all customers making a reasonable request for service where facilities are available. DISH requests ETC designation that is statewide in scope to allow the Company to provide Lifeline service wherever its underlying, facilities-based providers have wireless coverage. The current Kansas coverage footprint by zip code is attached hereto as Exhibit 3.

---

<sup>17</sup> See *2012 Lifeline Reform Order*, ¶ 368.

**E. The Company Will Advertise the Availability of Gen Mobile Services and Charges Using Media of General Distribution**

17. Pursuant to 47 U.S.C. § 214(e)(1)(B) and 47 C.F.R. § 54.201(d)(2), the Company will advertise the availability of Gen Mobile-branded voice, text messaging, and broadband services through various marketing channels that may include direct mail, email, local and community outreach events, and targeted online electronic advertising. In addition, the availability of Gen Mobile Lifeline service will be publicized in ways that are reasonably designed to reach those who will likely qualify for the service. The Company's marketing efforts will be consistent with and in compliance with the Commission's rules. Samples of the Company's Lifeline advertising are attached hereto as Exhibit 4.

**F. DISH Wireless Will Comply with Service Requirements Applicable to the Support It Receives**

18. Pursuant to 47 C.F.R. § 54.202(a)(1)(i), DISH Wireless will comply with the service requirements applicable to the supported services it will be offering in the identified service areas. Gen Mobile plans will be offered in Kansas initially by reselling wireless services, and in the future will also be supported by DISH Wireless' own 5G network facilities when feasible. These providers' networks are operational and largely built out. Thus, the Company will be able to commence offering its Lifeline service to all locations served by its underlying carriers very soon after receiving approval from the Commission.

**G. DISH Wireless Will Comply with Any Applicable Two-Year and Five-Year Plan Requirements**

19. Pursuant to 47 C.F.R. § 54.202(a)(1)(ii), a common carrier seeking designation as a Lifeline-only ETC is not required to submit a five-year network improvement plan as part of its application for designation as an ETC. DISH Wireless is in a unique position, however, because it is constructing its own facilities-based 5G wireless network subject to FCC-approved buildout

milestones, including having already deployed its 5G broadband service to more than 70% of the U.S. population by June 14, 2023 (including in Kansas). DISH Wireless commits to providing service consistent with the requirements of any other support mechanism pursuant to which it is authorized to receive support in the future.

#### **H. Consumer Protection and Service Quality Standards**

20. The Company commits to comply with all applicable consumer protection and service quality standards for universal service programs. As stated in 47 C.F.R. § 54.202(a)(3), a wireless applicant's commitment to comply with the Cellular Telecommunications and Internet Association's Consumer Code for Wireless Service ("CTIA Consumer Code") will satisfy this consumer protection and service quality requirement. DISH Wireless commits to fully complying with the CTIA Consumer Code.

#### **I. Ability to Remain Functional During Emergencies**

21. The Company's services are able to remain functional in emergency situations as required by 47 C.F.R. Section 54.202(a)(2). DISH Wireless' greenfield 5G network operates in a cloud-native environment that is not encumbered by traditional technology and will be more flexible and resilient in the event of service outages once the construction is complete. Currently, when DISH Wireless relies on mobile virtual network operator (MVNO) partner networks they are designed to remain functional even without external power sources, are able to re-route traffic around damaged facilities, and can manage traffic spikes that may occur in emergency situations.

#### **J. DISH Wireless Is Financially and Technically Capable**

22. As part of the *2012 Lifeline Reform Order*, the FCC amended its rules to require a carrier seeking designation as a Lifeline-only ETC to demonstrate that it is financially and

technically capable of providing the supported Lifeline service in compliance with all of the low-income program rules.<sup>18</sup> DISH Wireless satisfies these criteria.

23. DISH Wireless is financially stable and capable of honoring its service obligations to customers, as shown in Exhibit 5, a link to the Form 10-K of DISH Network Corporation, parent company of DISH Wireless, as well as meeting its federal and state regulatory obligations. The Company will not rely exclusively on revenues from the provision of Lifeline services for its operating revenues. The Company also has access to additional capital resources from its parent and affiliate companies. The Company's financial resources position the Company to expand its operations to serve currently unserved/underserved eligible low-income Kansas consumers and increase competition, including those residing on Tribal lands.

24. In addition, the proposed Lifeline offerings will be overseen by a team of personnel with substantial industry experience with the requirements of the federal Lifeline program and marketing to the low-income consumer sector. Attached as Exhibit 6 is a current list of the Company's key personnel responsible for Gen Mobile-branded Lifeline offerings, with biographical information for each, showing that the Company has the expertise necessary to provide the services detailed herein.

#### **K. Terms and Conditions of Proposed Lifeline Offering**

25. The Company has the ability to provide all services supported by the universal service program, as detailed in 47 C.F.R. § 54.101(a), throughout Kansas. The Company further affirms that its Lifeline-supported voice services will meet or exceed the minimum service standards set forth in 47 C.F.R. § 54.408, including as such standards are updated going forward. Gen Mobile-branded Lifeline-supported broadband services will also meet the minimum service

---

<sup>18</sup> See 2012 Lifeline Reform Order, ¶ 387; see also 47 C.F.R. § 54.202(a)(4).

standards set forth in 47 C.F.R. § 54.408 for mobile broadband internet access services, including for service speed and data usage allowance, as such standards are updated going forward. To the extent DISH Wireless provides devices for use with Lifeline-supported broadband service, such devices will meet the equipment requirements set forth in 47 C.F.R. § 54.408(f), and DISH Wireless will not impose an additional or separate tethering charge for mobile data usage below the minimum standard.

26. Attached hereto as Exhibit 2 is a summary table of the Company's proposed Lifeline service offerings, showing that Lifeline customers can receive 1,000 voice minutes, 1,000 text messages, and 6 gigabytes (GB) of data per month at a net cost of \$0.00 after application of Lifeline and KUSF support and customers residing on federally recognized Tribal lands can receive unlimited voice minutes and text messages and 20 GB of data per month at a net cost of \$0.00 after application of Lifeline Tribal and KUSF support. Customers will also be able to purchase additional minutes or data as needed. In addition to wholly-supported or discounted wireless services, prepaid Lifeline customers will be able to receive an upgraded handset at an additional charge or SIM card offer, as well as access to voice mail, caller I.D., call forwarding, 3-way calling, and call waiting features at no additional charge. Customers may use their minutes to place domestic long-distance calls at no additional charge, and calls to the Company's customer service are free with no deduction of available minutes. Calls to 911 emergency services are always free, regardless of service activation or availability of minutes.

**L. Gen Mobile's Offerings Will Comply with Lifeline Certification and Annual Re-certification Requirements**

27. Customers interested in obtaining information on the Lifeline program will be directed to a toll-free telephone number and to the Company's website, which will contain information regarding the Company's Lifeline service plans, including a description of the

Lifeline program and eligibility criteria. DISH Wireless will use multiple outreach methods including but not limited to nonprofit partnerships, phone, online, and in person enrollments through Lifeline events. Section 54.410 of the FCC's rules requires ETCs to certify and verify a Lifeline customer's initial and continued eligibility. DISH Wireless will rely on the National Verifier and the National Lifeline Accountability Database ("NLAD"), both administered by the Universal Service Administrative Company ("USAC"), to determine an applicant's eligibility for Lifeline service. DISH Wireless will require all Gen Mobile's Lifeline applicants to complete the standard Lifeline application forms in the National Verifier environment. The standard Lifeline application complies with the disclosure, certification, and information collection requirements in 47 C.F.R. § 54.410(d).<sup>19</sup>

28. For applicants verified as being eligible by USAC's National Verifier and NLAD, DISH Wireless will complete enrollment by transmitting the required information into NLAD as required by Section 54.404(b)(6) of the FCC's rules. In addition, at the time of enrollment, the Company will notify the applicant that the prepaid service must be personally activated by the subscriber and the subscriber must use their service every thirty (30) days in order to maintain their Lifeline benefit.

29. DISH Wireless will also comply with Sections 54.410(f) of the FCC's rules governing annual subscriber re-certification of eligibility and will coordinate with USAC's National Verifier and NLAD systems to manage additional de-enrollments related to USAC-administered benefit transfers and failure to re-certify.<sup>20</sup>

---

<sup>19</sup> *FCC Wireline Competition Bureau Provides Guidance on Universal Forms for the Lifeline Program*, WC Docket No. 11-42, Public Notice, "Wireline Competition Bureau Provides Guidance on Universal Forms for the Lifeline Program," DA 18-161 (rel. Feb. 20, 2018). The standard application/certification forms are available on USAC's website (*see* USAC, Lifeline Forms, <http://www.usac.org/li/tools/forms/default.aspx>).

<sup>20</sup> 47 C.F.R. §§ 54.405(e), 54.410(f).

**M. DISH Wireless Will Comply With All Regulations Imposed by the Commission**

30. By way of this Application, DISH Wireless hereby declares its ability and goal to comply with all the rules and regulations that the Commission may lawfully impose upon the Company's provision of service contemplated by this Application, including any reporting requirements set by the Commission. DISH Wireless will answer any questions or present additional testimony and other evidence about its services within the state upon the Commission's request. In addition, DISH wireless promises to pass on all support received from the federal USF and KUSF to its qualified Lifeline customers.

**N. Prevention of Waste, Fraud and Abuse**

31. The Company recognizes the importance of safeguarding the USF, and has implemented measures and procedures to prevent duplicate Lifeline benefits being awarded to the same household. Gen Mobile Lifeline offerings will comply with the requirements of the NLAD and section 54.404 of the FCC's rules. As part of the application process, the National Verifier queries the NLAD for every enrollment to determine whether a prospective subscriber is currently receiving a Lifeline service from DISH Wireless or any other ETC, and whether anyone else living at the prospective subscriber's residential address is currently receiving Lifeline service.

32. Consistent with federal regulations, the Company will not seek USF reimbursement for new subscribers until they have activated the service, either by initiation and/or actual use of the service, and will de-enroll any subscriber that has not used the Company's Lifeline service as set forth in 47 C.F.R. § 54.407(c)(2). An account will be considered active if the authorized subscriber establishes usage, as "usage" is defined by 47 C.F.R. § 54.407(c)(2), during the specified timeframe, currently a period of thirty (30) days, or during the notice period set forth in

47 C.F.R. § 54.405(e)(3), currently a period of fifteen (15) days. In accordance with 47 C.F.R. § 54.405(e)(3), DISH Wireless will provide the subscriber advance notice when a subscriber's failure to use the Lifeline service within the notice period will result in service termination for non-usage. Customers that have been deactivated may participate in the Company's Lifeline service in the future by reapplying and re-establishing eligibility.

33. To further protect the integrity of the USF, DISH Wireless contracts with third party vendors to supplement USAC's own processes and procedures. First, the Company will use Emerios Enterprise Services Inc. ("Emerios") software to process Lifeline applications. Among other things, Emerios uses third-party verification sources (including the Lexis Nexis LEXID service) to validate a prospective customer's identity. Emerios also validates the Company's subsidy data to prevent duplicate subsidies. In addition, the Company has established a back-office real time review ("RTR") process to be completed before a Lifeline application is passed to the National Verifier to qualify a customer. This process involves specially trained operations analysts (who have no financial stake in whether an application is successful) individually confirming the information entered into the application and supporting documentation to, among other things, confirm the identities of the sales agent and the customer by reviewing pictures of them in real time during the application process and review the customer's identification and address for anomalies. DISH Wireless has hired experienced staff and a third party company to provide RTR for the Company's Lifeline enrollments. This third party company has substantial experience running RTR for other Lifeline providers.

#### **V. DESIGNATING DISH WIRELESS AS AN ETC WOULD PROMOTE THE PUBLIC INTEREST**

34. The Commission will advance the public interest by designating the Company as an ETC so that it can offer the Gen Mobile-branded Lifeline services. Americans increasingly need

greater access to voice and broadband services, and low-income Kansas consumers in particular are suffering from the lack of affordable and available access. The Company is currently helping to close the gap by providing service under the ACP and stands ready to expand consumer choice and continue offering discounted services as a Lifeline ETC to customers who have come to rely on these benefits. In addition, because DISH Wireless is deploying a new facilities-based wireless 5G network throughout the country over the next several years, designating DISH Wireless as an ETC will improve its ability to apply for state broadband funding grants, should ETC designation be required, to increase service in underserved and unserved areas.

**A. Advantages of Gen Mobile Lifeline Plans**

35. Authorizing the Company as a Lifeline ETC in the State of Kansas will enable the Company to provide eligible low-income consumers with access to high quality mobile voice, text, and data services. This will increase those consumers' choices in service providers and service options and make essential communications services more affordable and accessible to these consumers. Mobile services are overwhelmingly preferred by Lifeline-eligible consumers who may be able to afford only a single connection, may frequently change residences or places of employment, and may need the ability to communicate with prospective employers. Some of these individuals may be experiencing homelessness and rely upon Lifeline service as their single reliable source of connectivity. Lifeline services also ensure that consumers always have the ability to contact 911 emergency services should the need arise. The availability of a no-charge Lifeline service that includes voice minutes, texts, and data is an invaluable resource for consumers in these circumstances.

36. Gen Mobile Lifeline service plans provide meaningful options for low-income consumers because they offer low-cost, reliable alternatives to traditional rate plans. Among the Gen Mobile Lifeline offerings is a plan with 1,000 voice minutes, 1,000 texts, and 6 GB of data

available to all qualifying low-income Kansas consumers for no cost, and a plan with unlimited voice minutes, unlimited texts and 20 GB of data available to residents of Tribal lands for no cost. Qualified Kansas consumers will have the choice to apply their Lifeline discount to existing Gen Mobile plans.

37. In addition, Gen Mobile Lifeline plans alleviate customer concerns regarding deposits, hidden costs, varying monthly charges, and long-term contract issues. Gen Mobile prepaid plans allow customers to subscribe to voice, text, and data services without the hurdle of a credit check or the commitment of a contract.

#### **B. Benefits of Competitive Choice**

38. Designating the Company as an ETC also meets the FCC's stated goals for promoting competition and increasing customer choice. The FCC has recognized that in non-rural areas, designation of multiple ETCs is "consistent per se with the public interest."<sup>21</sup> In rural and high-cost areas, the FCC determined that "designation of competitive ETCs promotes competition and benefits consumers . . . by increasing customer choice, innovative services, and new technologies."<sup>22</sup> In the Lifeline context, the entry of additional providers increases competitive choice for lower-income customers who may not be the focus of wireless carriers' marketing efforts. Launching Gen Mobile Lifeline options in Kansas will add affordable, innovative mobile wireless choices to the marketplace, and could spur other ETCs to expand and improve their own Lifeline service offerings. Granting ETC designation to DISH Wireless will promote competition for the benefit of consumers, including those residing on Tribal lands, and

---

<sup>21</sup> *Federal-State Joint Board on Universal Service, Cellco Partnership d/b/a Bell Atlantic Mobile, Petition for Designation as an Eligible Telecommunications Carrier*, Memorandum, Opinion and Order, CC Docket No. 96-45, DA 00-2895, ¶ 14 (rel. Dec. 26, 2000).

<sup>22</sup> *See Western Wireless Corporation Petition for Designation as an Eligible Telecommunications Carrier in the State of Wyoming*, Memorandum Opinion and Order, CC Docket No. 96-45, DA 00-2896, ¶ 17 (rel. Dec. 26, 2000).

will have desirable effects upon the Kansas market for Lifeline services by making these services more available and accessible, thereby supporting the goals of universal service.

#### **VI. ANTI-DRUG ABUSE CERTIFICATION**

39. In accordance with section 5301 of the Anti-Drug Abuse Act of 1988, DISH Wireless certifies that no party to the Application is subject to denial of federal benefits, including FCC benefits.

#### **VII. CONCLUSION**

40. Based on the foregoing, designation of DISH Wireless as an ETC in the State of Kansas accords with the requirements of Section 214(e)(2) of the Act and is in the public interest.

*WHEREFORE*, DISH Wireless respectfully requests that the Commission designate DISH Wireless as an ETC in the State of Kansas for the purpose of participating in the Lifeline program.

Respectfully submitted,

Mark P. Johnson, KS Bar #22289

Attorneys for DISH Wireless, L.L.C.

**EXHIBIT 1: AFFIDAVIT**

STATE OF CALIFORNIA

COUNTY OF LOS ANGELES

1. My name is Robert Yap. I am the Vice President of Gen Mobile of the Applicant, DISH Wireless L.L.C. dba Gen Mobile ("DISH Wireless" or the "Company").

2. I swear or affirm that all of the statements and representations made in this First Amended Application for a Lifeline-only Eligible Telecommunications Carrier ("ETC") Designation in Kansas are true and correct to the best of my knowledge, and that I am competent to testify to them, and that I have the authority to make this First Amended Application on behalf of the Applicant. I further swear or affirm that the Applicant understands and will comply with all requirements of law applicable to a Lifeline-only ETC.

Signature

Robert Yap

Typed or Printed Name

SWORN TO AND SUBSCRIBED before me on the 1<sup>ST</sup> day of SEPTEMBER, 2023.

Notary Public In and For the  
State of California

My commission expires: 07-20-2027

**EXHIBIT 2: PROPOSED LIFELINE PLANS**

<u>Subsidy Amount (\$)</u>	<u>Subsidy Type</u>	<u>Gen Mobile-Branded Lifeline Plan Offering</u>
17.02	Lifeline (Federal and State)	1,000 minutes of talk/voice, 1,000 text, 6 GB of data
42.02	Lifeline (Federal, State and Tribal)	Unlimited talk & text, 20 GB of data

A Kansas Lifeline Service Program subscriber will receive an additional 1.5 GB of data and free 1,000 text messages under the Gen Mobile-branded Lifeline Plan Offering, which are beyond the minimum service standards required under the Federal Lifeline Program.

# FREE MOBILE SERVICE

See if you qualify for the Lifeline Program with Gen Mobile!

## Apply Today

DISH Wireless LLC is authorized to provide Lifeline service under the Gen Mobile brand. The Lifeline Program ("Lifeline") is a government assistance program that provides discounted telephone services to eligible households funded by the Federal Universal Service Fund. A household means adults and children who are living together at the same address as one economic unit. An economic unit includes all people (born or at least 18 years old unless emancipated) contributing to and paying the household's expense and income. Only one discount per eligible household is permitted and is nontransferable to another person. The discount is tied to a single, primary residential address. Any household that receives the one discount per household limit or knowingly or willfully provides false information to obtain the Lifeline discount will lose its discount or will be banned from Lifeline and may be prosecuted by the government. There are two ways to qualify for the Lifeline discount: Program-based or income-based. Program-based qualification requires someone in the household to be enrolled in a public assistance program such as Medicaid, SNAP, Supplemental Security Income (SSI), or other qualifying government programs. Income-based qualification requires the household's last annual gross income is at or less 135% of the Federal Poverty Guidelines. The National Verifier administered by the Universal Service Administrative Company (USAC) will determine whether the household meets the eligibility requirements to participate in Lifeline. Many factors beyond Gen Mobile's control, such as network problems or congestion, signal strength, structure, weather, geography, etc., may affect the customer's ability to make and receive calls on the customer's wireless service, the quality of those calls and the speed of the customer's service. As a result, the customer's service, including calls or attempted calls to other party services like 911, may be interrupted, may fail, or result in dropped or blocked connections, become unavailable, service speeds may slow, or call quality of service may be poor. Go to [genmobile.com](http://genmobile.com) for Gen Mobile's terms & conditions, including the full restrictions for Lifeline, and wireless service plans.

## EXHIBIT 6: KEY PERSONNEL BIOS

**Robert Yap, VP of Gen Mobile, a DISH Wireless L.L.C. brand,** has over 20 years of telecommunication experience. Mr. Yap was an executive at several telecommunications companies (wireless, CLEC, and calling cards), including at Gen Mobile, Inc. where he was a founder, and was a corporate attorney at McDermott, Will & Emory. From 2015 to 2017, he was the President of TruConnect Communications, Inc., a nationwide wireless Lifeline Provider with over 500,000 customers during his tenure. In 2018, Mr. Yap and his fellow executives founded Gen Mobile, Inc. (later acquired by DISH Wireless L.L.C.), to provide consumers affordable wireless service options and to help bridge the digital divide for the 30% of Americans that have limited access to the internet. He hopes to provide the same in the State of Kansas with Gen Mobile as the head of the brand under DISH Wireless.

Mr. Yap also has served on several nonprofit boards including as chairman of the Asian Pacific Community Fund (“APCF”), a non-profit that has raised over \$5,000,000 for distribution to non-profits that serve communities in Los Angeles, and as a current board member of Center for Asian Americans United for Self-Empowerment (“CAUSE”), a non-profit dedicated to politically empowering the Asian Pacific American community. He also held leadership positions at Project by Project and the National Asian Pacific American Bar Association, and served in AmeriCorps at Public Allies Chicago.

Mr. Yap received his B.A. in Economics from Northwestern University and his J.D., with honors, from George Washington University School of Law.

**Anthony Lombardo, Director and Head of Finance for Gen Mobile,** is an experienced Finance and M&A professional. Prior to joining Gen Mobile, he worked with various early stage and venture backed start-ups as well as servicing private equity and strategic clients with buy-side and sell-side transaction support. He has experience supporting clients with needs in the CFO suite and finance operations and started his career at PricewaterhouseCoopers where he spent 13 years in both the audit and transaction support groups. Mr. Lombardo served as CFO at Gen Mobile, Inc. and is now the head of finance for the Gen Mobile brand.

Mr. Lombardo received his Bachelor of Science in Economics from The Wharton School at the University of Pennsylvania and his Master of Business Administration from the UCLA Anderson School of Management. Mr. Lombardo is also a licensed CPA (inactive) in the state of California.

**Jennifer Lin, Head of Marketing, Gen Mobile,** is a marketing and market research professional. She previously worked in market research at Farmers Insurance and was part of the team that launched online health insurance broker, HealthInsurance.com. Mr. Lombardo served as CFO at Gen Mobile, Inc. and is now the head of finance for the Gen Mobile brand.

Ms. Lin received her Bachelor’s degree from the University of California, Los Angeles and her M.P.H. from Boston University.

**Jose Andrade, Head of Operations, Gen Mobile**, has over 15 years of operational management experience at wireless telecommunications companies including from 2015-2018 as Director of Operations at TruConnect, a wireless Lifeline Provider with over 500,000 customers and from 2018-2021 as Director of Operations at Gen Mobile, Inc. His experience includes PMO leadership, customer service management, business optimization, data analysis, and leadership development. Mr. Andrade is responsible for day-to-day operations at Gen Mobile.

Mr. Andrade received his Business degree from the California State University-Los Angeles.

**Sola Lee, Senior Corporate Counsel, Gen Mobile**, has over 10 years of legal experience including as Counsel from 2015 to 2017 at TruConnect, a wireless Lifeline Provider with over 500,000 customers and from 2018-2021 at Gen Mobile, Inc. She was responsible for legal, regulatory, and compliance functions at TruConnect and Gen Mobile. Ms. Lee is the lead counsel for the Gen Mobile brand.

Ms. Lee graduated with a Bachelor's degree from the University of California, Davis and with a J.D. from the University of Oregon.

**Vincent Buongiovanni, Head of Sales Operations – ACP/Lifeline, Gen Mobile**, has over 10 years of experience in the wireless telecommunications industry, including managing the sales, operations, and compliance of Assurance Wireless' Affordable Connectivity Program and Lifeline Program nationwide, specifically managing the field agents used by the service provider. He also served as interim Director of Wireless at Assurance during the acquisition of Sprint by T-Mobile and is part-time police officer in Hi-Nella, New Jersey. Mr. Buongiovanni is in charge of the sales operations for ACP and Lifeline program for the Gen Mobile brand at DISH Wireless.
