Mid-Kansas Electric Company, LLC for)
Approval to Make Certain Changes in its)
Charges for Electric Services in the)
Geographic Service Territory Served by)
Lane Scott Electric Cooperative, Inc.)

by
State Corporation Commission
of Kansas
Docket No. 12-MKEE 410-RTS

JOINT PETITION FOR WAIVER OF FILING REQUIREMENTS

Mid-Kansas Electric Company, LLC (“Mid-Kansas”), the Staff of the State Corporation Commission of the State of Kansas (“Staff” and “Commission” respectively), and the Citizens’ Utility Ratepayer Board (“CURB”) (collectively referred to as “Joint Petitioners”), hereby petition the Commission for an Order waiving certain filing requirements pursuant to K.A.R. 82-1-231 with respect to the filing of a general rate case involving Mid-Kansas and one of its member-owners, Lane Scott Electric Cooperative, Inc. (“Lane Scott”). In support of this request, Joint Petitioners state the following:

1. Mid-Kansas is a Kansas Limited Liability Company operated on a not-for-profit basis with its principal place of business located in Hays, Kansas. Mid-Kansas is a coalition of five Kansas consumer-owned cooperatives and one corporation wholly owned by a sixth Kansas consumer-owned cooperative, who collectively organized Mid-Kansas for the purpose of acquiring Aquila, Inc., d/b/a Aquila Networks – WPK’s (“WPK”) Kansas electric utility assets.¹ Mid-Kansas is an electric public utility regulated by the Commission.

¹ The six electric utilities, collectively referred to as “Mid-Kansas Members,” and their headquarters are as follows: Lane-Scott Electric Cooperative, Inc., Dighton; Southern Pioneer Electric Company, Ulysses; Prairie Land Electric Cooperative, Inc., Norton; Victory Electric Cooperative Association, Inc., Dodge City; Western Cooperative Electric Association, Inc., WaKeeney; Wheatland Electric Cooperative, Inc., Scott City.

2. On November 15, 2005, WPK and Mid-Kansas filed a joint application for approval to transfer WPK's certificate of convenience and franchise to Mid-Kansas as well as transfer all WPK's electric business in Kansas to Mid-Kansas, including WPK's generation, transmission, and local distribution facilities located in Kansas (Docket No. 06-MKEE-524-ACQ) ("524 Docket").

3. On January 10, 2007, a Joint Motion for Approval of Stipulation and Agreement ("524 S&A") was filed with the Commission requesting approval of, among other things, the transfer by WPK of its generation, transmission, and local distribution facilities located in Kansas to Mid-Kansas. The Commission issued its Order approving the Joint Motion on February 23, 2007.

4. On April 1, 2007, Mid-Kansas and the Mid-Kansas members began operating the WPK electric, generation, transmission, and distribution facilities located in Kansas.

5. On July 26, 2007, in conformity with the provisions contained in the 524 S&A, Mid-Kansas filed with the Commission a request to transfer the distribution assets of Mid-Kansas to the Mid-Kansas members in Docket No. 08-MKEE-099-MIS ("099 Docket"). As part of the 099 docket, each Mid-Kansas member, including Lane Scott, executed an Electric Customer Service Agreement that provided for the continuation of retail electric service to the Mid-Kansas retail customers until such time as the certificated territory is transferred to the individual members. The Commission issued its Order approving the transfer and the Service Agreements on December 21, 2007.

6. On April 16, 2009, Mid-Kansas, Staff, and CURB filed a Joint Petition for Waiver of Filing Requirements ("Joint Petition") to facilitate the filing by Mid-Kansas of a

general rate proceeding consisting of a Mid-Kansas wholesale rate, and six “divisional” retail rate structures reflecting the cost of service for each of the Mid-Kansas members in Docket No. 09-MKEE-816-MIS (“816 Docket”). It was recognized at the time that while Mid-Kansas is subject to the filing requirements of K.A.R. 82-1-231, certain requirements contained in the regulation are more applicable to investor owned utilities, and as such the parties developed and presented to the Commission for approval a modified filing requirements schedule. The Commission approved the modified filing requirements on May 8, 2009. The modified filing requirements schedule was attached to the Commission’s May 8, 2009 Order as Schedule 1. It is attached to this Joint Petition as **Attachment A** and incorporated herein by reference.

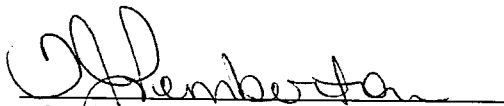

7. Since the Commission’s approval of the 816 Joint Petition, Mid-Kansas has filed two dockets utilizing the modified filing requirements. Joint Petitioners represent that the modified filing requirements are sufficient to allow a thorough review of the cost of service requirements for Mid-Kansas’ divisional rate for the Lane Scott division, and as such request the Commission approve the use of **Attachment A**, whereby waiving the filing requirements of K.A.R. 82-1-231 for the purposes of Mid-Kansas’ general rate case proceeding for the Lane Scott division. The current target date for Mid-Kansas to make its general rate case filing on or about December 19, 2011.

WHEREFORE, Joint Petitioners respectfully request the Commission grant this petition waiving the filing requirements of K.A.R. 82-1-231 and approving the use of the modified filing requirements attached hereto.

Respectfully submitted,

Mark D. Calcara, #09957
