Received  
KANSAS CORPORATION COMMISSION  
DEC 12 2017  
CONSERVATION DIVISION  
WICHITA, KS

VIA EMAIL AND USPS

Dear Mr. Stucky:

Today I received the KCC's Order Designating Prehearing Officer and Setting Prehearing Conference regarding the subject application. This order indicates our application was protested on October 16, 2017 by Susan Royd-Sykes.

KAR 82-3-135b.(d) requires that "(e)ach protester shall serve the protest upon the applicant at the same time or before the protestor files the protest with the conservation division. The protest shall not be served on the applicant by the conservation division." Please be aware that the protestor, Susan Royd-Sykes, never notified Larson Engineering, Inc., dba Larson Operating Company of the protest. The only notice of the protest came today when we received the Conservation Division's Order.

I respectfully request that the protest be dismissed for protester's failure to comply with KAR 82-3-135b.(d).

Very truly yours,

Larson Engineering, Inc.

  
Thomas Larson, P.E.  
President
