Full Name(s): Daniel F. Smalley
Address: P. O. Box 175; 3677 Front Street Grantville, Kansas 66429
Daytime Phone: 785-246-0639
E-mail Address (optional): workn46943@aol.com

FORMAL COMPLAINT

Daniel F. Smalley
(Your name)

states that the above-named respondent is a public utility providing service in Kansas and is subject to the jurisdiction of the State Corporation Commission.

The facts and circumstances surrounding the complaint are set out in detail below:
(Be specific and as brief as possible. If necessary, attach additional sheets.)

This is concerning the AMI device referred to as a "smart Meter" I am being required to allow Westar to install this device on my home. Due to the severe health conditions that can occur, I must request that I be exempt from such possible abuse. Exempt without reprisal or targetted retribution, like excessive charges or ripping out the old meter and damaging my electrical componants on my home. The health conditions that I already have cannot be exacerbated through EMF Radiation without severe consequence. Having spoken to a westar representative I was told that the EMF Radiation emitted from my microwave was worse than a "smart meter". I must dispute that claim. For one I dont have a microwave sitting im my bedroom next to my head running 24/7. And besides that a microwave is a faraday cage containing the radiation.

(Continued on the other side)

Formal Complaint *continued*

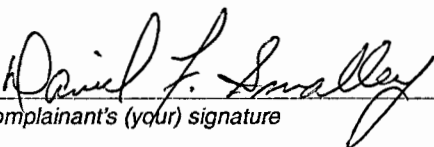

Complainant requests that the respondent utility be required to provide an answer to the complaint and requests the following action be ordered by the Commission. (*State action or result desired.*)

Next to my head is exactly where the new "smart meter" will be just on the otherside of the wall. I am asking why you the KCC or Westar has not commissioned an in depth study of the transmission of EMF radation of these devices by a qualified third party. It appears to me that these complaints such as mine here today are not new, but I do see that the health concerns have apparently been swept aside. I could submit countless documentation and articals for you, KCC and Westar to purview, but I can see there has been an abundance of information already submitted to no avail. My second concern is the "FIRE RISK" and my third concern is the unexplained "HIGH BILLS" that go along with these "smart meters". I am very coincerned about about my personal data being sent thousands of tims a day via wireless signals that can be hacked. Let me finish by saying that the proof is not on me that there is a health risk or a fire hazzard or that you wont put me in the proverbial poor house paying the bills generated by these new "smart meters. I say lets get a consensus, take a poll. Would an average informed citizen deliberately place themselves or there property or their finances in jeopardyThe proof is on you KCC and you Westar to prove that mine and all complaintants issues are undeniably verified either to be right or wrong by scientific study. These "smart meters" do create a health hazared by emitting high rates of radation 1000's of times a day. I can and will provide any links and studies if you so require.

and for such further order or orders as the Commission may deem necessary.

VERIFICATION: I do solemnly, sincerely, and truly declare and affirm that the statements made in this complaint form are true and accurate to the best of my knowledge, and I do this under the pains and penalties of perjury.

I understand that Formal Complaints filed with the KCC become a public record and may be posted on the KCC's website. Any information provided in the complaint or other documents related to the complaint, including, but not limited to, my name, address, city, state, zip code, telephone number, email address, and the facts of the case may be available online for public viewing.
