Counsel for Boomerang Wireless, LLC

Company has obtained access to the AT&T network via its Mobile Virtual Network Enabler (“MVNE”) and, therefore, has expanded its coverage area throughout the state. Boomerang hereby requests the Commission approve its Expanded Service Area set forth in **Exhibit “A”** for the purpose of receiving federal and state low-income universal service support for prepaid wireless services, specifically Lifeline. Boomerang plans to offer Lifeline service in all areas in Kansas that are served by its underlying carriers Sprint, Verizon, T-Mobile and AT&T; and, therefore, it requests designation statewide in all exchanges to the extent that its underlying carriers have facilities and coverage.

Boomerang respectfully requests that the Commission grant this Application and that it do so expeditiously so that Boomerang may provide wireless service to low income households in the Expanded Service Area as soon as possible. In further support of its Application, Boomerang states as follows:

D. The Company has been granted ETC designation in 24 States: Arizona, Arkansas, California, Colorado, Georgia, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, Texas, Kansas West Virginia, and Wisconsin. Boomerang also has applications pending in 17 jurisdictions for designation as an ETC on a wireless basis for federal support for Lifeline services.¹ Boomerang has never been denied ETC designation by any state commission or by the FCC in connection with any state.

E. Boomerang was previously designated as an ETC by the Commission and has been operating as a wireless ETC in the State of Kansas since 2013, in compliance with the Commission's conditions. Upon approval of the Expanded Service Area, Boomerang will continue to comply with each of the conditions set forth in the Commission's Order dated March 3, 2013, in Docket No. 13-BOWZ-121-ETC.

¹ Boomerang has ETC applications currently pending before state commissions in Hawaii, Massachusetts, New Jersey, New Mexico, Pennsylvania, and South Dakota. In addition, Boomerang has a pending petition before the FCC for granting ETC designations in Alabama, Connecticut, Delaware, The District of Columbia, Florida, Maine, New Hampshire, New York, North Carolina, Tennessee and Virginia, WC Docket No. 09-197 (filed Dec. 29, 2010).

II. BACKGROUND.

Section 214(e)(2) of the 1996 Act² provides that:

A State commission shall upon its own motion or upon request designate a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the State commission. Upon request and consistent with the public interest, convenience, and necessity, the State commission may, in the case of an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated by the State commission, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the State commission shall find that the designation is in the public interest.

Section 214(e)(1) of the 1996 Act³ provides:

A common carrier designated as an eligible telecommunications carrier under paragraph (2), (3), or (6) shall be eligible to receive universal service support in accordance with section 254 of this title and shall, throughout the service area for which the designation is received—

(A) offer the services that are supported by Federal universal service support mechanisms under section 254(c) of this title, either using its own facilities or a combination of its own facilities and resale of another carrier's services (including the services offered by another eligible telecommunications carrier); and

(B) advertise the availability of such services and the charges therefor using media of general distribution.

Pursuant to 47 U.S.C. § 214(e)(2), the Commission has the statutory authority to designate a common carrier as an ETC that offers the services supported by federal Universal Service Fund support mechanisms and advertises “the availability of such services and the charges therefore using media of general distribution.”⁴ As noted in Section 214(e)(2) of the 1996 Act, the Commission has the authority to designate the service area for each ETC.

² 47 U.S.C. § 214(e)(2).

³ 47 U.S.C. § 214(e)(1).

⁴ 47 C.F.R. § 54.201(d)(2).

III. BOOMERANG HAS ALREADY BEEN GRANTED DESIGNATION AS AN ETC IN THE STATE OF KANSAS

Boomerang was designated by the Commission as an ETC on March 13, 2013, in Docket No. 13-BOWZ-121-ETC upon recommendation by the Staff of the Commission (“Staff”). In connection with the Commission’s approval of Boomerang’s Application for Designation as an ETC, the Staff and the Commission considered the facts and matters set forth in the Application, including information regarding the Company’s organization, officers and managerial experience, financial and technical requirements, Boomerang’s FCC-approved Compliance Plan, advertising samples, terms of service, and information regarding handsets provided by Boomerang. In addition, the Staff and Commission reviewed Boomerang’s commitment to providing the required services, and to complying with Kansas service quality standards and verification and certification procedures, as well as the FCC’s additional eligibility requirements, consumer protection standards, and annual reporting requirements. Boomerang hereby reaffirms its compliance with and commitment to each of the foregoing requirements.

Since the Commission has already determined that the Company meets the requirements of an ETC in Kansas, the present Application is limited to whether Boomerang’s service area should be expanded to include the Expanded Service Area attached hereto as **Exhibit “A.”** As demonstrated below, Boomerang’s Application for Expanded Service Area serves the public interest as outlined by the FCC.⁵

⁵ See Federal-State Joint Board on Universal Service, *Report and Order*, CC Docket No. 96-45, 20 FCC Rcd 6371, ¶ 40-43 (Rel, March 17, 2005).

IV. APPROVAL OF THE EXPANDED SERVICE AREA IS IN THE PUBLIC INTEREST OF THE STATE OF KANSAS AND ITS LOW-INCOME TELECOMMUNICATIONS END-USERS

A. Wireless ETCs *Per Se* Promote the Public Interest in Non-Rural ILEC Areas

The FCC has determined that while “[d]esignation of competitive ETCs promotes and benefits consumers...by increasing customer choice,” designation must include “an affirmative determination that such designation is in the public interest regardless of whether the applicant seeks designation in an area served by a rural or non-rural carrier.”⁶ In areas served by non-rural ILECs, the 1996 Act does not require a separate public interest finding. The FCC has previously held that designating a competitor as an ETC in areas served by non-rural ILECs is *per se* in the public interest.⁷

In this Application for Expanded Service Area, Boomerang seeks designation as an ETC in areas served by both rural and non-rural ILECs in Kansas. Although Boomerang is seeking ETC designation in areas typically served by wireline carriers, Boomerang’s designation as an ETC will provide a valuable alternative to the existing telecommunications services currently available in these areas.

B. Approval of Boomerang’s Expanded Service Area as an ETC Serves the Public Interest

Boomerang submits that the public interest benefits of designating Boomerang as an ETC include 1) a larger local calling area and expanded coverage area via multiple underlying carriers (as compared to traditional wireline carriers and single wireless carriers); 2) the convenience, portability, and security afforded by mobile telephone service; 3) the opportunity for customers

⁶ See Federal-State Joint Board on Universal Service, 20 FCC Rcd 6371, ¶ 42 (2005).

⁷ See *Cellco Partnership*, 16 FCC Rcd, at 45.

to control cost by receiving a pre-set amount of flat-rate monthly airtime; 4) the ability to purchase additional low-cost usage at multiple convenient locations in the event that included usage has been exhausted; 5) the ability of users to use the supported service to send and receive “SMS” or text messages as well as the option to send data and access the public internet; and 6) 911 and, where available, enhanced 911 service in accordance with current FCC requirements. In addition, the inclusion of domestic telephone toll calling as a part of Boomerang’s flat-rate wireless offering allows consumers to avoid the risks of becoming burdened with significant and unexpected per-minute charges for domestic telephone toll and overage charges. These per-minute overruns form the basis of a substantial number of consumer complaints to state and federal regulators. Accordingly, Boomerang’s offerings will help to reduce this burden on public utility regulatory boards by obviating the cause for such complaints.

C. Grant of Boomerang’s ETC Status is Consistent with the FCC’s Additional Public Interest Factors

The FCC has also identified factors that are to be considered in determining whether designation of additional ETCs will serve the public interest and whether the benefits of an additional ETC would outweigh potential harms. These factors include: 1) the benefits of increased competitive choice; and 2) the unique advantages of the applicant company’s service offerings.⁸ Boomerang affirms that its ETC designation meets these criteria as described below.

1. *The Benefits of Increased Competitive Choice*

The FCC has long acknowledged the benefits to consumers of being able to choose from a variety of telecommunications providers and the resulting variety of telecommunications services they provide.⁹ This is of particular interest in cases where wireless providers like

⁸ 47 U.S.C. § 54.202(c).

⁹ See e.g. Specialized Common Carrier Services, 29 FCC2d 870 (1971).

Boomerang seek to provide service as an alternative to the ILEC. In the *Highland Cellular* case, the FCC recognized and affirmed that some households may not have access to the public switched network as provided by the ILEC.¹⁰ The availability of a wireless competitor benefits all consumers. The availability of a wireless competitor benefits consumers who routinely drive long distances to attend work or school or to accomplish everyday tasks such as shopping or attending community and social events. The wireless service offered by Boomerang will provide these consumers with a convenient and affordable alternative to traditional telecommunications service that can be used while at home and away from home.

Added together, Boomerang expects these additional competitive advantages to create an atmosphere that will cause many qualified consumers, at their option, to select Boomerang's low-income wireless Lifeline service in lieu of the more traditional wireline or wireless services.

Designation of Boomerang as an ETC also creates competitive pressure for other wireline and wireless providers within the proposed Expanded Service Area. In order to remain competitive in low-income markets, therefore, all carriers will have greater incentives to improve networks, increase service offerings and lower prices. This results in improved consumer services and, consistent with federal law, benefits consumers by allowing Boomerang to offer the services designated for support at rates that are "just, reasonable, and affordable."¹¹

2. *Unique Advantages of Boomerang's Service Offerings*

Boomerang will offer a unique, easy to use, competitive and highly affordable wireless telecommunications service, which it will make available to qualified consumers who either have no other service alternatives or who choose a wireless prepaid solution in lieu of more traditional

services. Boomerang's standard customer terms and conditions in connection with its wireless service offerings can be found at www.enTouchwireless.com.

Boomerang will announce and advertise telecommunications services as an ETC in its Expanded Service Area and will publicize the availability of Lifeline services in a manner reasonably designed to reach those likely to qualify for those services. Accordingly, more low-income Kansas residents will be made aware of the opportunities afforded to them under the Lifeline program and will be able to take advantage of those opportunities by subscribing to Boomerang's service. The Company is aware that the Commission, through its decision in Docket No. 06-GIMT-446-GIT, requires all competitive ETCs to include contact information for the Commission's Office of Public Affairs and Consumer Protection in its advertisements. An updated sample of Boomerang's planned advertising in the Expanded Service Area is attached hereto as **Exhibit "B."**

Boomerang will provide universal service as an ETC in all of its Expanded Service Area.

Boomerang will provide equal access to long distance carriers, to the extent to which it is able to do so.

Boomerang offers a local usage plan comparable to that offered by the ILEC in the Expanded Service Area for which it seeks designation.

Boomerang's Lifeline service is available with no credit check, deposit requirement, minimum service periods, or early termination fees. These services will be an attractive and affordable alternative to all consumers, without regard to age, residency, or credit worthiness.

D. Boomerang's Prepaid Wireless Lifeline Plans Boomerang will provide competitive wireless services throughout its Service Area in the State of Kansas. Under Boomerang's Lifeline Service Plan, qualified Lifeline customers who reside in Kansas will be

provided with the following optional plans, built on a base plan, with four options for acquiring a device:

250 Free Minute Plan: (Base plan) 250 units and 10 MB of data per month. This plan offers 250 minutes (where 1 minute equals 1 unit and 1 text equals 1 unit), for voice and text. Lifeline free minutes are automatically posted each month on the Lifeline customer's service. There are no rollover of minutes.

Lifeline Upgrade Data Plan: This plan includes 250 units per month (without rollover) in which 1 minute equals 1 unit and 1 text equals 1 unit, as well as 250 MB of data per month. The plan differs depending on the device: (1) for customers who bring their own device, they will pay a \$5 line fee for 90 days of service; (2) for customers who wish to purchase an entry-level smart phone from Boomerang, they can pay \$25 for the phone, and the \$5 fee will be waived for the first 90 days; after the first 90 days, the \$5 fee for 90 days will apply; (3) for customers who wish to purchase an iPhone 4 or equivalent, they can pay \$50 for the phone, and the \$5 fee will be waived for the first 90 days; after the first 90 days, the \$5 fee for 90 days of service will apply. Should a customer not wish to renew on the 90-day plan for \$5, the plan will convert to the 250 Free Minute plan. The 250 Free Minute plan will provide 250 units per month and 10 MB of data per month.

Tribal 1,100 Free Minute Plan: Boomerang will offer qualified consumers who are eligible for the tribal subsidy the Tribal 1,100 Free Minute Plan, which is the Tribal base plan. Lifeline is a component of one of four separate federal universal service fund mechanisms¹² known as the "low-income" support mechanism"¹³ and is defined in 47 C.F.R. § 54.401 as "a

retail local service offering” “available only to qualified low-income consumers” “for which qualifying low-income consumers pay reduced charges as a result of application of the Lifeline support amount” that includes the services or functionalities enumerated in § 54.401, which Boomerang will use to “[m]ake available Lifeline service...to qualifying low-income consumers”.¹⁴ Boomerang’s wireless Lifeline offering will provide eligible customers with 1,100 voice or text units and 100 MB of data per month.¹⁵ This plan offers 1,100 minutes (where 1 minute equals 1 unit and 1 text equals 1 unit), for voice and text. Lifeline free minutes are automatically posted each month on the Lifeline customer’s service. There are no rollover of minutes. This plan is only available to eligible applicants residing on Tribal lands. The additional minutes that exceed those offered in the 250 Free Minute plan (described above) is due to the additional \$25.00 per month in Lifeline support to qualifying low-income consumers living on Tribal lands.

Tribal Lifeline Upgrade Data Plan: This plan is for eligible customers that reside on Tribal lands. This new Tribal Lifeline Upgrade Data plan will include 1,100 units (voice or text) without rollover in which 1 minute equals 1 unit and 1 text equals 1 unit, as well as 500 MB of data. The plan also differs depending on the device: (1) customers can pay \$5 for 90 days of service, and will receive a free entry-level smartphone; or (2) customers can pay a one-time \$25 fee for an iPhone 4 or equivalent, with the \$5 line fee waived for the first 90 days, and a \$5 fee for 90 days after that. Also for this Tribal plan, if a customer chooses not to renew the paid plan,

he or she will be converted to a Tribal 1,100 Free Minute plan. The Tribal 1,100 Free Minute plan will provide 1,100 units and 100 MB of data per month.

Boomerang has a proven track record of tribal engagement and service to Native American populations residing on tribal lands. The Company currently serves tribes in the states of Arizona, Iowa, Kansas, Michigan, Minnesota, North Dakota, Oklahoma, Washington and Wisconsin. With its experience serving tribal communities in other states, Boomerang is well aware of and attuned to the telecommunications needs of Native American populations throughout the continental United States.

The terms and conditions of its voice telephony service plans offered to Lifeline subscribers are detailed on page 23 of the Compliance Plan on file with the Commission, and in the updated Terms of Service attached hereto as **Exhibit “C.”**

With respect to Boomerang’s Tribal Lifeline Service Plan, Boomerang meets each of the general requirements for designation as an ETC in the State of Kansas for the purposes of providing wireless Lifeline services to qualifying residents.

In addition, Boomerang meets the requirements for providing services to residents on Tribal lands in the State of Kansas. In its USF/ICC Transformation Order, the FCC adopted Tribal engagement requirements for all eligible telecommunications carriers (ETCs) either currently serving or seeking to serve Tribal lands. The FCC observed that engagement between Tribal governments and communications providers is vitally important to the successful deployment of, and provision of, service on Tribal lands. The Tribal engagement requirements ensure that ETCs demonstrate on an annual basis that they have meaningfully engaged with Tribal governments in their Universal Service supported areas.

At a minimum, the USF/ICC Order requires discussion with Tribes to include: (1) a needs assessment and deployment planning with a focus on Tribal community anchor

institutions; (2) feasibility and sustainability planning; (3) marketing services in a culturally sensitive manner; (4) rights of way processes, land use permitting, facilities siting, and an environmental and cultural preservation review processes; and (5) compliance with Tribal business and licensing requirements. Boomerang has successfully implemented the applicable Tribal engagement procedures in Kansas and several other States, and is committed to meaningful engagement within the proposed Tribal Service Area within the State of Kansas. Boomerang is fully committed to follow the FCC's guidance concerning Tribal engagement, which may be found at the following link:

http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-12-1165A1.pdf

If reasonably and fairly required by the Commission to adjust its service plans to achieve comparability in order to meet standards in the public interest, Boomerang commits to making any such adjustment. All low-income universal service support will be used to allow Boomerang to provide the service with no monthly recurring charge, thus ensuring that consumers receive the full benefit of the universal service support funding for which Boomerang will seek reimbursement. In the event that all airtime has been used, Lifeline customers will also have the capability of purchasing additional airtime in the various denominations set forth on pages 22-23 of the Compliance Plan. Boomerang will not deduct airtime minutes for calls by Lifeline customers with service addresses for Lifeline service in Kansas, to Boomerang's Customer Service (via 611 or other designated toll-free access dialing) and calls from Boomerang's Customer Service to such Lifeline customers to address billing, customer care and customer service issues.

Airtime replenishment cards will be made available at many retail outlets frequented by low-income customers throughout the Expanded Service Area such as CVS, Dollar General, Walgreens, Seven-Eleven, Fred's, Rite Aid, as well as from Boomerang's website.

The wireless plan will also include a free handset and the following custom calling features:

- (a) Caller ID;
- (b) Call Waiting;
- (c) Call Forwarding;
- (d) 3-Way Calling; and
- (e) Voicemail.

Under Boomerang's proposed low-income wireless offering, each eligible wireless customer will receive a 911 compliant handset at no cost to the subscriber. Attached hereto as **Exhibit "D"** is updated information regarding the handsets issued by Boomerang to its customers. Wireless handsets will be delivered at no charge to qualifying customers, service will be activated, and the requisite number of minutes will be added upon certification of the customer for Lifeline.

E. Approval of Boomerang's Expanded Service Area as an ETC Will Benefit Low Income Consumers in the State of Kansas.

Under the FCC Rules, an ETC applicant must demonstrate that it will satisfy applicable consumer protection and service quality standards.¹⁶ Boomerang will satisfy all such standards. As part of its certification requirements for providing local exchange services, Boomerang must abide by the service quality and consumer protection rules. Boomerang in general commits to satisfying all such applicable state and federal requirements related to consumer protection and service quality standards.

¹⁶ 47 C.F.R. §54.202(a)(3), 62 Fed. Reg. 15,978 at Para 28.

Under the FCC Rules, an ETC applicant must demonstrate its ability to remain functional in emergency situations.¹⁷ Boomerang is committed to providing and maintaining essential telecommunications services in times of emergency. In particular, Boomerang maintains a reasonable amount of back-up power to ensure the functionality of its service without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. More specifically, Boomerang's switching facilities are located in an SAS70 Type II certified datacenter facility with redundant power and network connectivity and a dedicated diesel generator. In addition, Boomerang relies in combination on certain facilities of its underlying CMRS providers who maintain a reasonable amount of back-up power to ensure the functionality of its service without an external power source. In instances of power outages, priority is set based upon traffic, cell site location and time of day.

In addition, designation of the Company as an ETC on a wireless basis will make Lifeline discounts available to many more Kansas residents. This provision of Lifeline discounts is particularly valuable to low-income customers in the wireless field, where, to Boomerang's knowledge, there are a limited number of wireless providers offering USF supported service and even fewer offering the same with absolutely no monthly recurring charge to the end-user. As such, the service for which Boomerang seeks ETC status is unique.

Inclusion of Boomerang's wireless service in the Lifeline program will serve the public interest by increasing participation of qualified consumers in those programs, thereby contributing to an overall increase in the number of Kansas residents receiving Lifeline service and an increase to the amount of federal USF dollars benefiting Kansas residents.

¹⁷ 47 C.F.R. § 54.202(a)(2); USF Order at Para 25.

Finally, inclusion of Boomerang's wireless service in the Lifeline program will serve the public interest by furthering the extensive role that Boomerang believes it will play in the provision of communications service to low-income consumers, transient users, and other consumers who, due to the restrictive credit criteria, deposit requirements, and long-term commitments of traditional service providers, are off network and, without any viable alternative, are likely to remain so.

CONCLUSION

Having demonstrated that this Application satisfies the public and universal service interests of the telecommunications consumers of the State of Kansas, Boomerang respectfully requests that the Commission approve this Application for Expanded Service Area for the provision of Lifeline support on a wireless basis throughout Boomerang's Expanded Service Area as set forth in **Exhibit "A,"** to include all exchanges to the extent that its underlying carriers Sprint, Verizon, T-Mobile and AT&T have facilities and coverage throughout the State of Kansas (Low Income Only).

DISCLOSURES

**YOU WILL HAVE TO VERIFY AND SIGN THIS DISCLOSURE FORM
IN ORDER TO RECEIVE YOUR LIFELINE PHONE**

I acknowledge and consent to enTouch Wireless divulging my name, telephone number, address, date of birth, last four digits of SSN or Tribal ID, amount of support being sought, means of qualification for support, and dates of service initiation and termination to the Universal Service Administrative Company (the administrator of the program) and/or its agents for the purpose of verifying that the subscriber does not receive more than one Lifeline benefit. In the event that USAC identifies me as receiving more than one Lifeline subsidy per household, I acknowledge and understand that all carriers may be notified so that I may select one service and be de-enrolled from the other.

I meet the income-based or program-based eligibility criteria for receiving Lifeline service and have provided documentation of eligibility if required to do so.

I understand that Lifeline is a federal government benefit program and that willfully making false statements in order to obtain this benefit can be punished by fine or imprisonment or I may be barred from the program.

My household will receive no more than one Lifeline-supported service. Lifeline service is available for only one subscription per household. A household is defined, for purposes of the Lifeline program, as any individual or group of individuals who live together at the same address and share income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. I understand that violation of the one-per-household requirement constitutes a violation of the FCC's rules and will result in my de-enrollment from the program, and could result in criminal prosecution by the United States government.

I understand that I must notify enTouch Wireless and provide my new address within 30 days of moving.

If I do not have a permanent address and have supplied instead a temporary address above, I understand that enTouch Wireless will attempt to verify every 90 days that I continue to rely on that address, and that I must notify enTouch Wireless within 30 days of my new address after moving. If I do not respond to enTouch Wireless' address verification attempts within 30 days, I understand that I may be de-enrolled from enTouch Wireless' Lifeline service.

I understand that I must notify enTouch Wireless within 30 days if (1) I cease to participate in a federal or state qualifying program or my annual household income exceeds 135% (150% for AZ, KS, MI, OH, TX) of the federal poverty guidelines; (2) I receive more than one Lifeline supported service; or 3) Another member of my household is receiving a Lifeline benefit or (4) I for any other reason no longer satisfy the criteria for receiving Lifeline support. I understand that I will be subject to penalties if I fail to follow this notification requirement, including being de-enrolled from the Lifeline program.

I understand and acknowledge that Lifeline service is a non-transferable benefit and that I may not transfer my service to any other individual, including another low-income consumer.

I acknowledge that I will be required to re-certify my eligibility for Lifeline benefits annually, and I may be required to re-certify my continued eligibility for Lifeline at any time, and that failure to do so will result in the termination of my Lifeline benefits.

I hereby authorize enTouch Wireless to send text messages to my enTouch Wireless number about my Lifeline benefit. Text messages sent by enTouch Wireless will not decrement my available wireless minutes or texts. Standard voice, data and text rates will apply to all messages to and from anyone other than the Company.

I attest under penalty of perjury that the information herein is true and correct to the best of my knowledge.

Your agreement ("Agreement") with enTouch Wireless powered by Boomerang Wireless and any of its affiliates doing business as enTouch Wireless providing mobile phone services ("Services") to you is made up of these terms and conditions of service ("Terms"). We use the words "we," "us" or "our" to refer to enTouch Wireless powered by Boomerang Wireless and its affiliates doing business as enTouch Wireless in these Terms. When you activate Services or attempt to use our Services (including, without limitation, attempting to place a call) you accept the Agreement.

Non-Discrimination: Company offers Lifeline, a government assistance program, on a non-discriminatory basis to any consumer who completes and submits the required Lifeline application and supporting documentation that 1) meets and maintains the eligibility requirements as defined by the Company policy and terms, federal and state rules and regulations including approval by the federal and state Lifeline Administrator(s), rules and regulation(s), as and where applicable; and 2) resides within the Company's approved service area for wireless telephone services. enTouch Wireless has been approved by the California Public Utilities Commission as a California LifeLine Program provider. We may decide not to provide Services to you for any lawful reason. We may request that you provide us with any information we reasonably require to determine whether you qualify or are eligible under federal guidelines or the applicable state guidelines for Services. Services in some areas are managed and provided under contract with enTouch Wireless by independent affiliates to our network provider. Some Services may not be available or may operate differently in certain affiliate markets.

Changes to Agreement: enTouch Wireless may modify this Agreement at any time by posting the revised Agreement on the website. Any changes to the Terms are effective when we publish the revised Terms of Service. If you use our Services or make any payment to us on or after the effective date of the changes, you accept the changes. If you do not accept the changes, you may terminate Services. For purposes of the Agreement, "use" includes keeping the right to access the enTouch Wireless Coverage Area by not terminating Services. You may not modify the Agreement.

You may not use enTouch Wireless voice and text Services for monitoring services, data transmissions, transmission of broadcasts, transmission of recorded material, telemarketing, broadcast or autodialed calls or texts, other commercial uses, **or other connections that do not consist of** uninterrupted live dialogue between individuals. Use of more than 3,000 units within a 30-day period or less may trigger a review of the usage in accordance with this Acceptable Use Policy.
- **Data Services:** enTouch Wireless data Services are provided only for personal (i.e., non-commercial) use, which includes web surfing, sending and receiving email, photographs and other similar messaging activities, and the non-continuous streaming of videos, downloading files or online gaming. enTouch Wireless data Services may not be used for any of the following uses: (1) to generate excessive levels of Internet traffic through the continuous, unattended streaming, downloading or uploading of videos, music, or other files or to operate hosting services including, but not limited to, web or gaming hosting; (2) to maintain continuous active network connections to the Internet, for example, through a web camera or machine-to-machine connections that do not involve active participation by a person; (3) to disrupt email use by others using automated or manual routines, including, but not limited to "auto-responders" or cancel bots or other similar routines; (4) to transmit or facilitate any unsolicited or unauthorized advertising, telemarketing, promotional materials, "junk mail," unsolicited commercial or bulk email, or fax; (5) for activities that adversely affect the ability of other people of system to use either enTouch Wireless' or other parties' Internet-based resources, including, but not limited to, "denial of service" (DoS) attacks against another network host or individual user; (6) for an activity that connects any device to Personal Computers (including without limitation, laptops), or other equipment for the purpose of transmitting wireless data over the network (unless customer is using a enTouch Wireless handset designated for such usage); or (7) for any other reason that violates our policy of providing Service for individual use.

The prohibited uses in this section also apply to unlimited plans. Unlimited does not mean unreasonable use. If enTouch Wireless finds that you are using an unlimited voice, text, or data Service offering for any of the prohibited uses in this section, enTouch Wireless may at its option terminate your Service or change your plan to one with no unlimited usage components. enTouch Wireless will provide notice that it intends to take any of the above actions, and will give you an opportunity to terminate the Agreement. Unlimited talk and text includes talk and text within the U.S. only.

Availability: Company provides the ability to send and receive voice-grade calls over all domestic distances (local and long distance) via a wireless voice-grade connection to the public switched telephone network. Our voice Services provide the ability to send and receive voice-grade calls within the nationwide (domestic) operating range of the enTouch Wireless Coverage Area. There is power back-up for the underlying enTouch systems that support enTouch LifeLine wireless service as well as underlying carrier power backup systems including limitations due to power for equipment on towers or other facilities in accordance with Federal and state requirements. Coverage and quality of Services may be affected by conditions within or beyond our control, including atmospheric, geographic, or topographic conditions. We do not guarantee that there will be no interruptions or delays in Services. Your enTouch Wireless phone will not accept the services of any wireless provider other than enTouch Wireless.

Services unavailable at home: If you fail to receive a voice-grade connection, notify enTouch Customer Service. enTouch Customer Service will 1) promptly attempt to restore voice service, or if not possible, 2) provide telephone service using a different network carrier if offered by enTouch and if you agree to that change; or 3) allow you to discontinue service. No termination fees or penalties apply.

Phone Number: We assign telephone numbers and other personal identifiers in connection with the Services. Unless we provide you advance notice in writing, you have no proprietary right to any such identifiers, and we reserve the right to change them upon notice to you. You do not have any property right to your phone number. It may be changed or reassigned. In the event that you become entitled to transfer a personal identifier to another party to obtain any Services we provide you, we reserve the right, prior to honoring the request for transfer, to charge a fee for the transfer and to collect any money owed by you for Services and Equipment.

Charges: Eligible Lifeline subscribers will receive free airtime as part of your enTouch Wireless service. Free and purchased airtime is measured in 'units' for voice and text service. One (1) unit equals one (1) minute, and one (1) unit equals one (1) text message. "1 unit = 1 minute = 1 text." Airtime is used in one-minute increments and any fraction of a minute is rounded up and charged at the full minute rate; calls are measured from the time the network begins to process the call (before the phone rings or the call is answered) through the termination of the call. Some plans include free data usage. Data is measured in megabytes which is decremented at the rate of content downloaded/uploaded to the network. More information on data plans & usage is available through customer service by dialing 611.

For California Residents only: enTouch Wireless has been approved by the California Public Utilities Commission as a California LifeLine Program provider. This benefit program is available to eligible California low-income households and is funded by the State of California. The California LifeLine plan offerings enTouch has available are listed at the end of the Terms of Service.

The Company does not differentiate domestic long distance telephone usage from local usage; customers utilize their minutes of use at the same rate for each type of call. You may also choose to add Airtime through a Top Up card or other commerce channel. This airtime may be invalidated if not paid for by the retailer. Any rollover minutes associated with a plan offering expire after 60 days from the date the minutes were issued.

For most forms of wireless Service, your usage will be charged from the time you first initiate contact between your phone or other wireless device and the network until the network connection is broken, whether or not you are successful in connecting with the service with which you seek to connect, even if the connection is later broken or dropped. Your account is not charged for voice calls that are not completed. You are charged for completed calls to your Number from the time shortly before the phone starts ringing until the call is terminated by either party.

Unless noted otherwise, the following call types are provided with enTouch Services:

- **411 Directory Assistance:** Directory Assistance calls are free; there is no additional charge. Units/minutes for Directory Assistance are deducted from your available balance of units.
- **611 Company Customer Service:** The Company's handsets can reach 611 Company Customer Service regardless of units (minutes) available on your balance of units. And there is no decrement of minutes when you dial 611 from their Lifeline phone.

Arbitration: Any dispute arising out of the Agreement or relating to the Services and Equipment must be settled by arbitration administered by the American Arbitration Association in Des Moines, Iowa. Information regarding this procedure may be found at www.adr.org. Each party will bear the cost of preparing and prosecuting its case. We will reimburse you for any filing or hearing fees to the extent they exceed what your court costs would have been if your claim had been resolved in a state court having jurisdiction. The arbitrator has no power or authority to alter or modify the Agreement, including the foregoing Limitation of Liability section. All claims must be arbitrated individually, and there will be no consolidation or class treatment of any claims. This provision is subject to the Federal Arbitration Act.

You maintain your right to file a complaint with the applicable state commission regarding the service provided and/or charges imposed by enTouch Wireless. Nothing in this paragraph or this agreement in any way eliminates or abridges that right. Please see 'Concerns, Complaints or Disputes' for more information before proceeding to Arbitration.

Georgia Residents: Arbitration is the method for settling any dispute unless otherwise agreed to by both parties. Arbitration will be held in Georgia unless otherwise agreed to by the parties.
