Jada L Ford
9510 Shearer Rd
Edwardsville, KS 66111

Dear Ms. Ford,

Here at Westar Energy, we greatly appreciate and value the opportunity to be your long-term electric service provider. In addition to providing safe, clean, reliable electricity, a key responsibility of ours involves periodic reviews of service territories. Therefore, we have recently partnered with Kansas City Power and Light (KCPL) and the Kansas Corporation Commission (KCC) to review service territory boundaries in your area.

So what does "service territory" mean? The Retail Electric Suppliers Act, passed by the Kansas legislature in 1976, mandated that only one electric supplier be assigned to a given geographic area, or service territory. The KCC approved geographic boundaries for each electric supplier in which only one supplier could provide electric service.

The recent review of territory boundaries mentioned above has determined your address is located in KCPL's service territory. Therefore, prior to KCC action, KCPL is currently the electric utility with the obligation to provide your electric service.

As a result of this territory review, KCPL and Westar have filed applications with the KCC to adjust the boundary at your location and grant Westar proper certificate authority to provide electric service at your address. We are providing this notice to inform you of the pending proceeding with the KCC, and our desire to retain your business.

Westar values you as a customer and wishes to continue serving you as we have for many years. If you have any questions regarding this letter or the pending proceeding, please contact me at (785) 575-8097 or the KCC at 1-800-662-0027. If you desire to provide comments regarding this matter to the KCC, please provide comments by July 7, 2015.

Thank you again for your business!

Warm regards,

A handwritten signature in black ink, appearing to read "Terry Wilson", with a long horizontal line extending to the right.
