STATE CORPORATION COMMISSION

OCT 25 2018

TRANSPORTATION DIVISION

RE: Inspection Report: KSHP92100966 – Dated August 27, 2018
VIN: [REDACTED] 310220
License Number [REDACTED]
Invoiced No. H000576335

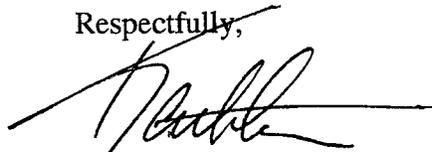

To whom it may concern:

Per the attached invoice and letter from the Kansas Corporation Commission, we are being assessed a fine for violation 396.3A1, no annual inspection report.

All of our company vehicles have annual inspections as a matter of course. It is also a DOT and Missouri licensing requirement. This includes the above noted dump truck, our unit 820. The inspections are on the vehicles with the insurance certificates that are equipment specific. Apparently the driver did ^{not} know the compartment in which they are stored. This gentleman usually drives one of our semi's.

May we please have this violation corrected?

Respectfully,

Kathleen McConnell
