

**BEFORE THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS**

In the matter of the application of Berexco)	Docket No. 20-CONS- 3200	-CEXC
LLC for an exception to the 10-year)		
time limitation of K.A.R. 82-3-111 for its)		
Chrisler-Elliott #9 well located in)	CONSERVATION DIVISION	
the NW SW NE of Sec 7, T11S, R15W)		
Russell County, Kansas.)		
_____)	License No.: 34318	

APPLICATION

COMES NOW Berexco LLC ("Operator") for its application in the captioned matter states as follows:

1. Operator is a limited liability company authorized to do business in the State of Kansas. Operator's address is 2020 North Bramblewood, Wichita, Kansas 67206.
2. Operator has been issued by the Kansas Corporation Commission Operator's License #34318, which expires on October 30, 2020.
3. Operator is the owner and operator of the Chrisler-Elliott #9 well, API #15-167-21714-0000 which is located in the Northwest Quarter of the Southwest Quarter of the Northeast Quarter of Section 7, Township 11 South, Range 15 West, Russell County, Kansas. The subject well is located on an active oil and gas unit comprising the following lands: The South Half of the Southeast Quarter of Section 1, the East Half of the Northeast Quarter and the Northeast Quarter of the Southeast Quarter of Section 12, all in Township 11 South, Range 16 West,

Russell County, and the Southwest Quarter of Section 6 and all of Section 7, all in Township 11 South, Range 15 West, Ellis County, Kansas.

4. Pursuant to K.A.R. 82-3-111, Operator obtained temporary abandonment status for the Chrisler-Elliott #9 on April 15, 2009. The subject well has maintained such status from April 2009 to the present date.

5. On or about January 28, 2019, the Kansas Corporation Commission notified Operator that temporary abandonment status for the subject well would be denied because the subject well had been temporarily abandoned for more than ten (10) years and the temporarily abandoned status was expiring on or about January 19, 2020.

6. K.A.R. 82-3-111 imposes a 10-year limitation on the amount of time during which wells may be temporarily abandoned, but an exception to the 10-year limitation may be obtained pursuant to said regulations through an application filed with the Commission pursuant to K.A.R. 82-3-100. Operator seeks a second exception.

7. The subject well demonstrated mechanical integrity as evidenced by passage of Commission Staff-witnessed mechanical integrity test on or about December 3, 2019.

8. Operator is keeping the subject well for possible future conversion to either a producing well or an injection well. The subject well should not be plugged to prevent economic waste associated with re-drilling. Estimated cost to plug this well is \$20,000. To convert to a producer, the Lokset packer would be pulled and production equipment installed in the well. The estimated associated cost for conversion to a producing well is \$60,000. To convert to injection, cement would be circulated behind the casing from at least 50' below the base of the usable water to the surface and a packer and injection string would be run in the well. The estimated associated cost for conversion to an injection well is \$80,000. Operator doesn't

currently wish to alter the flood or production patterns in the northern portion of the waterflood unit where the subject well is located. Production from the Chrisler-Elliott Unit is around 24 BOPD with potential reserves in excess of 100,000 barrels of oil.

9. Operator has included a plat map showing the locations of all producing, injection, saltwater disposal, temporarily abandoned, and plugged wells located on the same leased premises as the subject well. There are eight active producing wells, five active water injection wells, one active water supply well, and two temporarily abandoned producing wells (including the subject well) on the unit.

10. Based on the foregoing, Operator requests the Commission grant an exception to the 10-year limitation, specifically to allow the subject well to remain eligible for temporary abandonment status for the three (3) years following the expiration of the 10-year limitation. Operator understands that the exception would be valid for three (3) years, but Operator would still need to apply annually to the Conservation Division District Office for approval of an application for temporary abandonment status.

11. Listed in the attached Exhibit "A" are the names and addresses of the following persons:

- A. Each operator of each oil and gas lease covering lands within one-half (1/2) mile radius of the subject well; and
- B. Each person who owns any mineral interest of record in and under any lands located within one-half (1/2) mile radius of the subject well (provided that such mineral interest is not covered by any oil and gas lease).

12. Notice of this application has been published pursuant to K.A.R. 82-3-135a. In addition, notice of the hearing to be held in this matter will be provided as prescribed by K.A.R. 82-3-135.

WHEREFORE, Applicant prays that this matter be granted administratively without a hearing, or in the alternative be set for hearing, and upon hearing that the Commission grant Applicant's request, for an exception to the K.A.R. 82-3-111 ten (10) year limitation, to allow the subject well to remain temporarily abandoned for three (3) years, subject to annual approval by the Conservation Division District Office of an application for temporary abandonment status.

Respectfully Submitted,

Jonathan Hayward
