**ORDER OPENING COMPLIANCE DOCKET FOR INTERCONNECTED VOIP
PROVIDERS TO NOTIFY COMMISSION OF INTENT TO REQUEST NUMBERS**

NOW, the above-captioned matter comes before the State Corporation Commission of the State of Kansas (Commission) for consideration and decision. Having reviewed its files and records and being duly advised in the premises, the Commission makes the following findings:

1. On June 15, 2016, Commission Staff (Staff) submitted a Report and Recommendation (Staff's R&R) to the Commission recommending that a docket be opened to allow companies to comply with the Federal Communications Commission's (FCC) June 22, 2015, Order requiring Voice over Internet Protocol (VoIP) providers to notify the Commission of their intent to request numbering resources from the North American Numbering Plan (NANP). Staff's R&R is attached hereto and incorporated herein by reference.

2. On June 22, 2015, the FCC issued Order 15-70 in WC Docket No. 13-97, wherein it acknowledged the nation's communications infrastructure is undergoing key technology transitions, including a transition from networks based on time-division multiplexed (TDM) circuit-switched voice services to all-Internet Protocol (IP) multi-media networks. The FCC also established a process authorizing interconnected VoIP providers to obtain NANP telephone numbers directly from the Numbering Administrators, rather than through intermediaries.

3. In the above-referenced Order 15-70, the FCC requires interconnected VoIP providers to file notices of intent to request numbers with relevant state commissions, on an on-going basis, at least 30 days prior to requesting numbers from the Numbering Administrators. According to the FCC, these filings will provide state commissions with the opportunity for monitoring, quality control and troubleshooting when it comes to carrier number usage. The FCC does not require state commissions to approve each request for numbers, but the 30 day notice requirement provides state commissions with the information and ability to raise concerns if warranted.

4. Staff recommends the Commission open this Compliance Docket for filings of interconnected VoIP providers to notify the Commission of their intent to request numbers from the Numbering Administrators because this will ensure all filings are in one place and can be easily accessed by providers, the North American Numbering Plan Administrator (NANPA), and the general public.

5. The Commission finds Staff's recommendation to be reasonable and hereby adopts the same.

IT IS, THEREFORE, BY THE COMMISSION ORDERED THAT:

A. This docket shall be opened for the purpose of requiring interconnected VoIP providers, 30 days prior to requesting numbers from the North American Numbering Plan Administration, to file with the Commission notices of their intent to request numbers from the Numbering Administrators.

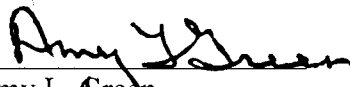

B. The parties have fifteen (15) days, plus three (3) days if mailed service, from the date this order was served in which to petition for reconsideration. K.S.A. 66-118b; K.S.A. 77-529(a)(1).

C. The Commission retains jurisdiction over the subject matter and the parties for the purpose of entering such further orders, as necessary.

BY THE COMMISSION IT IS SO ORDERED.

SUBJECT: Docket No. 16-GIMT-579-CPL
In the Matter of the Requirement that VoIP Providers File Notices of
Intent to Request Numbers to the Commission 30 Days Prior to
Requesting Numbers From the North American Numbering Plan
Administration.

EXECUTIVE SUMMARY:

Staff recommends this Docket be opened to allow companies to comply with the Federal Communications Commission (FCC's) June 22, 2015, Order¹ requiring Voice over Internet Protocol (VoIP) providers to notify the Commission of their intent to request numbering resources from the North American Numbering Plan (NANP).

BACKGROUND:

In the FCC's June 22, 2015, Order in WC Docket No. 13-97, the FCC acknowledged the nation's communications infrastructure is undergoing key technology transitions, including that from networks based on time-division multiplexed (TDM) circuit-switched voice services to all-Internet Protocol (IP) multi-media networks. Further, the FCC established a process to authorize interconnected VoIP providers to obtain NANP telephone numbers directly from the Numbering Administrators, rather than through intermediaries.

¹ *In the Matter of Numbering Policies for Modern Communications*, WC Docket No 13-97, Order 15-70, dated June 22, 2015.

ANALYSIS:

In the above referenced Order, the FCC requires interconnected VoIP providers to file notices of intent to request numbers with relevant state commissions, on an on-going basis, at least 30 days prior to requesting numbers from the Numbering Administrators.

The FCC states these filings will allow the states to monitor number usage and raise any concerns about the request with the service provider, the FCC, and the Numbering Administrators. This notice period also gives state commissions the opportunity to determine, as they currently do with carriers, whether the request is problematic for any reason, such as the provider's failure to submit timely Numbering Resource Utilization and Forecasting (NRUF) reports or meet the utilization threshold necessary to obtain additional numbers.

The FCC does not require state commissions to approve each request, but rather, this requirement provides state commissions with the information and ability to raise concerns if warranted.

RECOMMENDATION:

Staff recommends the Commission open this Compliance Docket for filings of interconnected VoIP providers to notify the Commission of their intent to request numbers from the Numbering Administrators. This will ensure that all filings are in one place and can be easily accessed by providers, NANPA, and the general public.
