

BEFORE THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS

In the Matter of the Application of Macy Resources, LLC for an Exception to K.A.R. §82-3-111 (b) for Applicant's Klink B-2 well, located in the Southwest Quarter of Section 8, Township 35 South, Range 4 East, Cowley County, Kansas.

Docket No. 23-CONS-3072-CEXC
Conservation Division

Operator License No. 35889

APPLICATION

COMES NOW Applicant Macy Resources, LLC (hereinafter "Macy"), and respectfully requests that the Commission grant an exception to K.A.R. §§ 82-3-100(b) and 82-3-111(b) and the ten-year limitation on the temporary abandonment ("TA") status for Applicant's Klink B-2 well, located in the Southwest Quarter of Section 8, Township 35 South, Range 4 East, Cowley County, Kansas. In support of its Amended Application, Macy Resources states the following information in supplement to its original application:

1. Applicant is a Kansas Limited Liability company, authorized to do business in the State of Kansas. Applicant's address is 1352 Evergreen Drive, Bartlesville, Oklahoma 74006
2. Applicant has been issued by the Kansas Corporation Commission Operator's License 35889
3. Applicant acquired the Klink Lease and Klink B-2 well from United Energy and Exploration, LLC in December 2021.
4. Applicant is the owner and operator of the Klink B-2 well, API 15-035-01993-00-02 ("the subject well"), which is located in the SW/4 of Section 8, Township 35 South, Range 4 East, Cowley County, Kansas as shown on Ex. A. .

5. Applicant obtained the Klink Lease with several other leases December 2021 and is in the process of conducting Engineering studies to determine the most efficient manner to restore production. Applicant operates a producing well near the Klink B-2 and has reason to believe the subject well can be restored to productivity.

6. On July 26, 2022, the subject well passed a Commission Staff-witnessed mechanical integrity test of the casing between the surface and a point within fifty (50) feet above the uppermost perforation in the well. A copy of the MIT test is attached hereto as Ex. B

7. K.A.R. 82-3-111 imposes a 10-year limitation on the amount of time during which wells may be temporarily abandoned, but an exception to the 10-year limitation may be obtained pursuant to said regulation through an Application filed with the Commission pursuant to K.A.R. 82-3-100. Applicant seeks such an exception.

8. Applicant wishes to continue current TA status for the subject well, because Applicant intends to restore its production and thus prevent waste of natural resources.

9. Based on the foregoing, Applicant requests the Commission grant an exception to the 10-year limitation, specifically to allow the subject well to remain eligible for temporary abandonment status for three (3) years following the expiration of the 10-year limitation. Applicant understands that the exception would be valid for three (3) years, but Applicant would still need to apply annually to the Conservation Division District Office for approval of an application for temporary abandonment status.

10. The Applicant will proceed to publish notice of this Application as required by K.S.A. §82-3-135a(b) and K.A.R. §82-3-135a(d) by publication notice in the *Cowley Courier Traveler* and in *The Wichita Eagle* newspapers. A copy of this Application is being mailed prior to or concurrent with the filing of the application to the operators of record and unleased mineral owners shown on Exhibit C within one-half mile of the Klink B-2.

WHEREFORE, Applicant prays that with this Application will be granted administratively without a hearing, or in the alternative be set for hearing, and upon hearing that the Commission grant Applicant's request, for an exception to the K.A.R. 82-3-111 ten (10) year limitation, to allow the subject well to remain temporarily abandoned for three (3) years, subject to annual approval by the Conservation Division District Office of an application for temporary abandonment status.

Respectfully submitted,

TRIPLETT WOOLF GARRETSON, LLC
