

**THE STATE CORPORATION COMMISSION OF THE STATE OF KANSAS**

Before Commissioners: Shari Feist Albrecht, Chair Jay Scott Emler Dwight D. Keen

In the Matter of the Application of  
RJM Company to authorize injection  
of saltwater into the Lansing-Kansas  
City formation at the Doll#3 well located in  
the SW/4 of Section 27, Township 18  
South, Range 11 West, Barton County, Kansas.

Docket No: 18-CONS-3305-CUIC  
CONSERVATION DIVISION  
License No: 30458

**MOTION TO DENY APPLICANT'S MOTION TO DISMISS THE PROTESTS FILED HEREIN**  
June 28, 2018

Honorable commissioners,

When I submitted my letter requesting that my protest regarding the above application not be denied, it was unclear to me that such letter needed to be sent to everyone on the docket. I would like to be able to express my concerns and present evidence to ensure the safety of any new well, especially in such a sensitive landscape.

Please do not dismiss my protest of the above application which is so close to the Cheyenne Bottoms.

My husband and I own acreage in Section 23, Township Eighteen and it is crucial that Kansas protect the Cheyenne Bottoms as well as my own valuable property. I enjoy going birdwatching at the Bottoms and hope to preserve this preserve for future generations.

Many tourists travel to Hoisington for bird watching at the Bottoms. The Doll Lease well is too close to this internationally recognized wetland bird sanctuary. I am concerned that the KCC is not protecting my water quality and jeopardizing this great asset into the future.

Sincerely,  
Royceann Mather
