RE: KanOkla Tariff filing
Updating DA pricing

Dear Ms. Green:

Attached for filing, please find KanOkla Telephone Association's tariff modifications increasing Directory Assistance pricing. KanOkla is changing providers and the new provider charges on a per call basis. Based upon the last twelve months' call volume, KanOkla estimates an annual net revenue impact increase of just under \$300.

If you have any further questions, please don't hesitate to let me know.

Cordially yours,

Colleen R. Jamison

cc: Eric Eaton

O. LOCAL DIRECTORY ASSISTANCE 411 SERVICE

1. General - The Company furnishes Local Directory Assistance Service whereby customers may request assistance in determining local telephone numbers.
2. Rates - When the customer dials the Local Directory Assistance Number (411), the charge for each call (maximum of two requested telephone numbers per call) is \$1.00. Should the customer request assistance in connecting the call, the call will also be billed at \$.30 per minute. (CR)

P. CUSTOM CALLING SERVICE

1. Application of Tariff - This Tariff applies to all management services furnished through the central offices of the Telephone Company designed to provide customers with optional feature capabilities.
2. General Regulations - Rates specified herein are in addition to rates contained in other applicable sections of the Telephone Company's General Exchange Service Tariffs or Local Exchange Tariffs.
3. Definitions

(A) Customer Calling Service consists of one or more features which provide special kinds of customer-controlled communications features on individual service lines. Custom Calling Services can be described generally as:

- (1) Anonymous Call Rejection (ACR) - Allows the customer to block an incoming call for which display information has been intentionally blocked by the calling party. The caller receives either a tone or an announcement.
- (2) Automatic Call Back (ACB) - Enables the customer to automatically redial the last outgoing telephone number dialed. When the recalled telephone number is busy, the number is automatically redialed up to thirty (3) minutes in an attempt to establish the call.
- (3) Automatic Recall (AR) - Allows the customer to automatically redial the most recent incoming call or call attempt. If the number is busy the Telephone Company's equipment will monitor the line for a maximum of thirty (30) minutes in an attempt to establish the call.
- (4) Caller ID (CND) - Allows the transmission of calling party number to the customer's access line. Caller ID customers must provide and connect their own compatible premises equipment to process the calling party number transmission. For calls originating from a line with multiline hunt group, ordinarily the main telephone number is delivered. The Telephone Company assumes no liability for any incompatibility of the customer provided display equipment.
