**Re: Docket No. 22-COVT-200-COC
Cable One VoIP LLC
Supplement to Application**

Dear Director Retz:

On November 1, 2021, Cable One VoIP LLC (the “Company”) filed an Application for Certificate of Convenience and Necessity (the “Application”) with the Kansas Corporation Commission (the “Commission”) for authority to provide competitive local exchange and exchange access services within the State of Kansas. The Application was filed in connection with an internal corporate reorganization involving the Company, its parent Cable One, Inc. (“Cable One”), and its affiliate Valu-Net, LLC (“VN”), which is a subsidiary of Cable One and holds authority to provide local exchange and exchange access service in Kansas (the “Reorganization”). After completion of the Reorganization, Cable One will provide video services to the customers previously served by VN and the Company will provide voice services to those customers. The Company hereby supplements the Application as follows:

First, the Application stated that VN customers would receive notice of the transfer of their service to Cable One and/or the Company, as applicable. The Company hereby supplements the Application to state that VN customers will continue to receive service under the “Valu-Net” brand after completion of the Reorganization. The Reorganization will be transparent to existing VN customers – those customers will continue to receive service under the “Valu-Net” name as they do today, and all billing and correspondence will continue to reflect the “Valu-Net” name for the immediate future. Accordingly, customer notice is not required because there will be no change in service provider from the customer’s perspective.

Second, the Application stated the Company does not plan to impose intrastate access charges in Kansas. The Company hereby confirms that it will not impose intrastate access charges in Kansas, and thus is not required to have an intrastate access tariff on file with the Commission.
