20-TRAM-014-005

To Whom It May Concern,

We LLC received notice in the mail yesterday an order to revoke "New Entrant" registration and cease all interstate transportation for our US DOT number. Casework Solutions, LLC is a very small cabinet manufacturer that sometimes delivers its products with a pickup truck and small cargo trailer attached. We registered a DOT number because we believed that was what we needed to do.

We are currently going through the process of getting our truck and trailer ready to pass inspection, set up drug testing accounts, and the other processes necessary to be DOT and FMCSA compliant.

This is our former notice to request a hearing in this matter. For any information needed please don't hesitate to contact me at the number, email address, or address below.

Sincerely,

A handwritten signature in black ink, appearing to be "Randy Frey", with a long horizontal stroke extending to the right.
