Dear Commissioners,

This concerns Docket No. 20-EKME-397-COM.

I filed a complaint against Kansas City Power and Light (now Evergy) on March 13, 2020. Staff issued their report on August 24, 2020. I reviewed the report and filed a response the same day. That response is enclosed.

Staff totally missed many of the points that I raised in my complaint, and I feel that the Commission needs to review that report and my response. Hopefully, you will agree that this case needs to proceed and deserves a hearing at the earliest date.

Regards,

William J. Flohrs
