Phil Frick, President

TO: Rene Stucky – KCC UIC Department
FROM: Phil Frick on behalf of JTC Oil, Inc.
RE: Blunk Injection Applications for wells I-10 and I-11; Docket E-22297
API: Blunk I-10: 15-059-27130
API: Blunk I-11: 15-059-27144

Mr. Stucky:

It is our understanding that the applications for injection for the Blunk I-10 and I-11 wells have come under significant protest and will require a hearing along with substantial additional work on the part of JTC to get the applications approved. Because of this, JTC has decided to withdraw the applications at this time.

This letter serves as formal notice to the KCC that JTC would like to withdraw the applications and cancel the upcoming hearing.

Regards,

Phil Frick – President of Frick Energy Services, LLC on behalf of JTC Oil, Inc.
