Dear Ms. Christiansen,

Magellan Pipeline Company, L.P. ("MPL") is filing with the Kansas Corporation Commission, the tariff K.C.C. No. 38 issued March 30, 2018 with a requested effective date of May 1, 2018. Below is a summary of all proposed changes pursuant to filing requirements in K.A.R. 80-10-2.

K.C.C. No. 38 includes a new Two-Year Volume Incentive Program and rates in Item Nos. 250-251 from the Kansas Origin Group (Coffeyville and El Dorado) and McPherson origins to Kansas City (Argentine), KS. This filing is being made to coincide with Magellan's filing of F.E.R.C. No. 170.23.0 tariff wherein a corresponding Volume Incentive Program was filed in Items 250-251. All volume incentive rates are below the corresponding base rates found in this tariff in Item 200 and F.E.R.C. No. 160.26.0. All base rates remain unchanged.

The Table of Contents includes the new Incentive Program, Item No. and Page No. and, also has wording changes to reflect the current page numbers for all items.

Volume Incentive program, Item No. 265 contains wording changes to reflect the current associated F.E.R.C. and O.C.C. tariff numbers. All Incentive Rates in Items 266 are unchanged.

Volume Incentive program, Item No. 290 contains wording changes to reflect the current associated F.E.R.C. tariff numbers. All Incentive Rates in Items 291 and 292 are unchanged.

The estimated annual Kansas incremental revenue from the incentive program in this filing is marginal as this program offers discounted rates in return for committed volumes. The benefit to MPL is that the proposed new program will provide guaranteed committed volumes of 4.5 million barrels annually for two years.

Attached is a copy of MPL's system diagram map per K.A.R. 82-10-2 (E).

The Magellan Pipeline Company, L.P. FERC Form 6 Annual Report for 2016 is on file with the commission. The 2017 report has not yet been filed.
