RE: Docket No. 19-KGSG-088-TAR

Dear Ms. Retz:

KGS is submitting the attached true-up report of its GSRS collections as required by the Commission in Docket No. 19-KGSG-088-TAR. As shown on the attached schedule, KGS has over collected its authorized GSRS revenue requirement by \$14,324. This over collection equates to a one-time refund of \$0.02 per residential customer. However, in-lieu of a one-time refund to each customer, KGS is requesting that it be allowed to refund this over collection in the Company's next GSRS filing, which the Company anticipates will be in the later part of 2019.

Attachment A provides the calculation of the amount of under collection and identifies the GSRS recoveries by month.

KGS will promptly respond to any additional information requested from Staff. Thank you for your consideration.

Sincerely,

Lorna Eaton
