Objection of Authorization of a Well Location Exception
Daniel Rice, License Number: 35301

In the matter of application of Daniel Rice, license number 35301, for an order authorizing a well location exception. I object to this application pursuant to K.A.R. 82-3-108. We want to protest this application due the inaccuracy of names listed on the application notice. The notice states that Daniel and Melody Rice are married which is false. We are married and have been humiliated by the information stating that Daniel and Melody are still married. We contacted Daniel Rice and asked him to correct the information and send a retraction letter stating that the information was incorrect and Daniel Rice alone is filling for the application. Daniel Rice then sent letters out again with the same incorrect information on them and no retraction letter. Due to the humiliation of the inaccurate listing of Daniel and Melody being married we want to protest the application of authorization of the gas well location exception. We wish to see the law be held and no authorization be permitted to Daniel Rice. Please contact us via email if possible as we would like to keep our address private.
