Ms. Kim Christiansen, Executive Director  
Kansas Corporation Commission  
1500 S.W. Arrowhead Road  
Topeka, KS 66604-4027

Dear Ms. Christiansen:

Please accept for filing the following KCC tariffs, issued on this date, May 28, 2015, to be effective on July 1, 2015, by Richard S. Petersen, General Manager of Jayhawk Pipeline, L.L.C. These tariff rates are increased by the annual F.E.R.C. Index for 2015 which is 1.045829.

Supplement #11 to KCC No. 79  
Supplement #13 to KCC No. 80  
Supplement #11 to KCC No. 81  
Supplement #10 to KCC No. 82  
Supplement #10 to KCC No. 83

Required supporting documentation attached includes customer notice of tariff change, change pages, officer verification and supporting FERC Docket No. RM93-11-000 – 2015 Notice of Annual Change in the Producer Price Index for Finished Goods. A tariff calculation spreadsheet is attached showing the current tariff rates, maximum tariff rates based on the FERC index for 2015, and the proposed tariff rates effective July 1, 2015.

The amount of dollars of the aggregate annual increase which this Application proposes is \$728,700 based on estimated volumes for July 1, 2015 through June 30, 2016 and the rate changes included in this filing.

Jayhawk Pipeline, L.L.C. has served notification of the tariff issuance on or before the issuance date to all shippers that Jayhawk serves in Kansas. Upon approval by the Kansas Corporation Commission, Jayhawk will make these tariff documents available on a website at: <http://www.jayhawkpl.com>.

If you need additional information, or if we can be of any further assistance, please call me at 620-241-9275.

Sincerely,

Ellen Gilbert  
Contract & Regulatory Analyst

My Commission Expires:

151 FERC ¶ 61,136  
UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Revisions to Oil Pipeline Regulations  
Pursuant to the Energy Policy Act of 1992

Docket No. RM93-11-000

NOTICE OF ANNUAL CHANGE  
IN THE PRODUCER PRICE INDEX FOR FINISHED GOODS

(May 14, 2015)

The Commission's regulations include a methodology for oil pipelines to change their rates through use of an index system that establishes ceiling levels for such rates. The Commission bases the index system, found at 18 CFR § 342.3, on the annual change in the Producer Price Index for Finished Goods (PPI-FG), plus two point six five percent (PPI-FG + 2.65). The Commission determined in an *Order Establishing Index For Oil Price Change Ceiling Levels*,<sup>1</sup> issued December 16, 2010, that PPI-FG + 2.65 is the appropriate oil pricing index factor for pipelines to use for the five-year period commencing July 1, 2011.

The regulations provide that the Commission will publish annually, an index figure reflecting the final change in the PPI-FG, after the Bureau of Labor Statistics publishes the final PPI-FG in May of each calendar year. The annual average PPI-FG index figures were 196.6 for 2013 and 200.4 for 2014.<sup>2</sup> Thus, the percent change (expressed as a decimal) in the annual average PPI-FG from 2013 to 2014, plus 2.65 percent, is positive

---

<sup>1</sup>133 FERC ¶ 61,228 at P 1 (2010).

<sup>2</sup> Bureau of Labor Statistics (BLS) publishes the final figure in mid-May of each year. This figure is publicly available from the Division of Industrial Prices and Price Indexes of the BLS, at 202-691-7705, and in print in August in Table 1 of the annual data supplement to the BLS publication *Producer Price Indexes* via the Internet at <http://www.bls.gov/ppi/home.htm>. To obtain the BLS data, scroll down to "PPI Databases" and click on "Top Picks" of the Commodity Data including "headline" FD-ID indexes (Producer Price Index – PPI). At the next screen, under the heading "Producer Price Index Commodity Data," select the box, "Finished goods - WPUSOP3000," then scroll to the bottom of this screen and click on Retrieve data.

0.045829.<sup>3</sup> Oil pipelines must multiply their July 1, 2014, through June 30, 2015, index ceiling levels by positive 1.045829<sup>4</sup> to compute their index ceiling levels for July 1, 2015, through June 30, 2016, in accordance with 18 CFR § 342.3(d). For guidance in calculating the ceiling levels for each 12 month period beginning January 1, 1995,<sup>5</sup> *see Explorer Pipeline Company*, 71 FERC ¶ 61,416 at n.6 (1995).
