**ORDER GRANTING KANSAS CITY POWER & LIGHT COMPANY'S
PETITION TO INTERVENE**

This matter comes before the State Corporation Commission of the State of Kansas (Commission) for consideration and decision. Having reviewed the pleadings and record, the Commission makes the following findings:

1. On December 3, 2015, the Commission issued an Order Opening General Investigation into the U.S. Environmental Protection Agency's Final Rule on Carbon Pollution Emission Guidelines for Existing Stationary Sources.¹ The Order stated, "[p]arties granted intervention shall be limited to making written and oral comments and inclusion on the service list, which will assure receipt of copies of comments and other pleadings deemed non-confidential."² The Order further noted that, "[p]arties granted intervention will not be granted the right to issue discovery but will be able to review the non-confidential responses to Staff's data requests."³

2. On December 22, 2015, Kansas City Power & Light Company (KCP&L) filed a Petition to Intervene, setting forth their substantial interest in this proceeding as a vertically integrated electric public utility with generating units required to comply with EPA rules regarding emission guidelines. KCP&L further asserted their expertise, insight, experience and information may assist the Commission in its investigation in this matter and therefore requests participation in the docket.

3. The Commission finds KCP&L has demonstrated an interest in this proceeding. Therefore, pursuant to K.A.R. 82-1-225, the Commission grants KCP&L's Petition to Intervene under the conditions set forth in the Order Opening General Investigation.

4. KCP&L will be added to the official service list. Service of pleadings, communications, and correspondence should be delivered to counsel of record and KCP&L's other designees, as follows:
