Re: KCC New Docket; In the Matter of the Petition of Southwestern Bell Telephone Company, LLC d/b/a AT&T Kansas for an Order Confirming Relinquishment of Its Eligible Telecommunications Carrier Designation in Specified Areas.

Dear Secretary:

Attached you will find the Petition of Southwestern Bell Telephone Company, LLC d/b/a AT&T Kansas (“AT&T Kansas”), for an Order Confirming Relinquishment of its Eligible Telecommunications Carrier Designation in specified census blocks in its local exchange service areas. The filing includes Petition Exhibits A – L. Please note that AT&T Kansas deems Exhibit C to be proprietary and confidential, it is submitted pursuant to the provisions of K.S.A. 66-1220a.

AT&T Kansas respectfully requests an Order of the Commission granting its Petition in this matter on or before October 1, 2025, and confirming AT&T Kansas’ relinquishment of its ETC designation in the specified census blocks effective December 1, 2025.

Sincerely,

Bruce A. Ney
AVP—Senior Legal Counsel

**PETITION OF SOUTHWESTERN BELL TELEPHONE COMPANY, LLC
D/B/A AT&T KANSAS FOR AN ORDER CONFIRMING RELINQUISHMENT OF
ELIGIBLE TELECOMMUNICATIONS CARRIER STATUS**

COMES NOW Southwestern Bell Telephone Company, LLC d/b/a AT&T Kansas (“AT&T Kansas”), pursuant to 47 U.S.C. § 214(e)(4) and 47 C.F.R. § 54.205, K.S.A. 66-2006(d), K.S.A. 66-2008, K.S.A. 66-2009, K.A.R. 82-1-218, and K.A.R. 82-1-219, and respectfully requests an order from the Kansas Corporation Commission (“Commission”) confirming relinquishment of AT&T Kansas’ Eligible Telecommunications Carrier (“ETC”) designation for 1,289 census blocks (“CBs”) within its local exchange service areas in the state of Kansas (the “Relinquishment Area”), as described herein, effective December 1, 2025.

This Petition provides the Notice required by 47 U.S.C. § 214(e)(4) to relinquish an ETC designation.

In support of its Petition and Notice, AT&T Kansas shows the Commission as follows:

I. PROCEDURAL BACKGROUND

1. AT&T Kansas is an electing carrier pursuant to K.S.A. 66-2005(x), as

designated by the Commission.¹

2. AT&T Kansas is also the incumbent local exchange carrier (“ILEC”) in its Kansas exchanges.

3. On November 7, 1997, the Commission issued an order adopting a plan put forth by the Commission Staff for the designation of ETCs to receive federal Universal Service Fund (“USF”) support.² The Order directed that “[a]ny company desiring ETC eligibility shall file an affidavit as described [in the Order] with the Commission no later than November 20, 1997, to ensure timely processing.”³

4. On November 18, 1997, AT&T Kansas filed its application and affidavit requesting ETC designation for purposes of universal service funding distributions.⁴ Designation was sought for the company’s “operating areas in Kansas which are the local exchange service areas defined by SWBT’s current local exchange tariffs”⁵

5. Subsequently, on December 5, 1997, the Commission, acting upon the proposal of the Commission Staff and the submitted application/affidavit, designated AT&T Kansas, pursuant to 47 U.S.C. § 214(e)(1)(A) and (B), as an ETC in each of its 135 ILEC

exchange areas in Kansas.⁶

6. Pursuant to 47 U.S.C. § 214(e)(1), carriers must be designated as ETCs to be eligible to receive federal universal service funding in accordance with 47 U.S.C. § 254, in exchange for which they are required to offer and advertise supported services pursuant to 47 C.F.R. § 54.201(d) and meet the obligations associated with the universal service programs in which they participate. Historically, federal universal service funding has included “high cost” support to deploy and maintain networks in rural and other high-cost areas, as well as reimbursement from the Lifeline Assistance Program (“Lifeline”) for discounts on supported services to eligible consumers. Beginning in 2011, in accordance with the Federal Communications Commission’s (“FCC’s”) recommendations in the 2010 National Broadband Plan, the FCC refocused these traditional universal support programs over time, steadily reducing the scope of AT&T Kansas’ participation. AT&T Kansas has received no (\$0) federal high-cost universal service support for Kansas in any of the CBs in the Relinquishment Area since the FCC’s transitional Connect America Fund Phase II (“CAF Phase II” or “CAF II”) model-based support funding ended on December 31, 2021.⁷

7. On October 27, 2016, AT&T Kansas filed an application with the Commission for an order confirming relinquishment of its ETC status in some – but not all –

⁶ *Establishing Guidelines for Designating Eligible Telecomms. Carriers (ETCs) by the State Comm’n under the Fed. Commc’ns Comm’n’s (FCC’s) Universal Serv. Ord. ⁷ AT&T Kansas met all incremental and final deployment milestones by the required December 31, 2020, deadline, passed all performance testing protocols in Kansas, and otherwise satisfied all of its public interest obligations as a recipient of CAF II funding. The CAF II funding period ended December 31, 2021, reflecting the program’s 6-year funding period plus the optional 7th funding year that AT&T Kansas opted to receive. See *CAF Phase II Model*, Universal Serv. Admin. Co., <https://www.usac.org/high-cost/funds/caf-phase-ii/> (last visited Mar. 24, 2025).

of its service territory in Kansas.⁸ This approach was prompted by the modernization of the high-cost universal service program at the federal level and, specifically, AT&T Kansas' decision to accept the transitional CAF II model-based support beginning in 2015. Under the CAF II program, AT&T Kansas received funding over a 7-year period in exchange for the obligation to deploy broadband-capable networks and offer federally supported broadband and voice service to a defined number of locations in FCC-identified high-cost CBs in its ETC service areas.⁹ AT&T Kansas thus proposed to relinquish its ETC designation except in the CAF II-eligible CBs and CAF II extremely high-cost CBs that received high-cost support and/or where high-cost support could be expended.

8. On March 14, 2019, the Commission issued its *Order on AT&T's Request to Relinquish Its Eligible Telecommunications Carrier (ETC) Designation*,¹⁰ granting AT&T Kansas relinquishment in all the requested CBs except for 1,248 CBs identified in the Order.¹¹ The *Relinquishment Order* also directed the KCC Staff to recalculate the number of remaining CBs where AT&T Kansas was to retain its ETC designation and file a report with the Commission.¹²

10. On March 29, 2019, *AT&T Kansas' Petition for Reconsideration and Response to Nex-Tech's Petition for Partial Reconsideration*¹⁴ was filed. In its Petition for Reconsideration, AT&T Kansas stated that although it disagreed with the Commission's legal reasons for denying relinquishment in the 856 CBs,

in order to moot the issue and avoid the need for further litigation on the novel legal issues raised by the [Relinquishment Order], ... [t]he Commission finds it reasonable to reconsider and revise its Relinquishment Order, thereby finding that AT&T may relinquish its ETC designation in all of the requested census blocks, in accordance with the retention of its ETC designation in the aforementioned 856 census blocks. To put it positively, the Commission finds that AT&T shall retain its ETC designation in 15,049 census blocks, including the aforementioned 856 census blocks and all of the census blocks it requested to retain in Exhibit B to its initial Application.¹⁷

12. On October 6, 2023, AT&T Kansas filed an application with the Commission for an order confirming relinquishment of its ETC status covering 14,600 CBs in wire centers and exchanges for which it had not previously received relinquishment.¹⁸ The relinquishment area consisted of some, but not all, of those CBs for which AT&T Kansas had previously chosen to retain its ETC designation for purposes of receiving CAF II funding, which expired on December 31, 2021,¹⁹ as well as some CBs the company had also previously chosen to voluntarily retain.

14. Through this Petition, AT&T Kansas seeks to relinquish its ETC designation in its remaining 1,289 CBs for which it did not previously receive relinquishment.²³ The CBs in the Relinquishment Area, and the AT&T Kansas ILEC exchange areas and wire centers where these remaining CBs are located are listed in **Exhibit A**, attached hereto, and made a part hereof by this reference.

II. LEGAL STANDARD

15. In 47 U.S.C. § 214(e)(2) and (4) and 47 C.F.R. § 54.205, Congress and the FCC delegated authority to state commissions to designate carriers as ETCs and permit carriers to relinquish their ETC designations. The “bright line” standard for relinquishing an ETC designation is:

A State commission ... **shall permit an eligible telecommunications carrier to relinquish its designation** as such a carrier **in any area served by more than one eligible telecommunications carrier**. An eligible telecommunications carrier that

seeks to relinquish its eligible telecommunications carrier designation for an area served by more than one eligible telecommunications carrier shall give advance notice to the State commission ... of such relinquishment.²⁴

A state commission “shall permit an eligible telecommunications carrier to relinquish its designation ... *in any area served by more than one* eligible telecommunications carrier.”²⁵

Section 214(e)(4) does not distinguish one designated ETC from another for purposes of relinquishment. Nor does the law treat relinquishment of an ETC designation by an ILEC any differently than relinquishment by other designated ETCs. As discussed herein, AT&T Kansas meets the legal standard for relinquishment in the 1,289 CBs in the Relinquishment Area, and the Commission therefore should promptly grant the Petition.²⁶

16. Federal policy also has fundamentally shifted since the Commission designated AT&T Kansas as an ETC in 1997, and there is no policy rationale for AT&T

²⁴ See 47 U.S.C. § 214(e)(4) (emphases added); 47 C.F.R. § 54.205(a) (same). Because AT&T Kansas here seeks only to relinquish its designation as an ETC, this Petition does not require it to request approval to discontinue any service under 47 U.S.C. § 214(e). See, e.g., *Verified Petition of AT&T Miss. For an Ord. Confirming Relinquishment of Its Eligible Telecomms. Carrier Designation in Specified Areas*, Docket No. 2016-UA-213, Order Confirming AT&T Mississippi’s Relinquishment of Its Eligible Telecommunications Carrier Designation in Specified Areas, 2017 Miss. PUC LEXIS 83, at *6–7 (Apr. 13, 2017) (“[T]he requirements related to continuation of service and adequate notice are not applicable in the matter because AT&T will not discontinue any service as a result of the Commission confirming partial relinquishment of the Company’s ETC status.”).

²⁵ 47 U.S.C. § 214(e)(4) (emphases added).

²⁶ Every other state to rule on a relinquishment request from AT&T has in whole or in part permitted AT&T ILECs to relinquish their ETC designations. See, e.g., *Implementation of Universal Serv. Requirements of Section 254 of the Telecomms. Act of 1996*, Docket No. 25980, Second Order Approving Relinquishment of ETC Designation, 2022 Ala. Kansas to remain the ETC in the Relinquishment Area.²⁷ The federal Telecommunications Act of 1996²⁸ introduced competition into the telecommunications market. In the ensuing 29 years, fixed and mobile facilities-based and reseller carriers competing with ILECs, like AT&T Kansas, provide service throughout the Relinquishment Area. Many of these competitors have ETC designations, providing Lifeline discounts to low-income households. Numerous others offer competitive, affordable voice service without being designated as an ETC and without receiving any USF-type funding, thus completely avoiding any associated service obligations.

17. As the marketplace has evolved, universal service policies have shifted from funding ETCs with corresponding voice service obligations to broadband funding – most often without the requirement that providers hold an ETC designation to receive broadband funds. As just one recent example, in the very near future, competitive broadband service providers participating in the Broadband Equity, Access, and Deployment Program (“BEAD”)²⁹ may be awarded as much as \$451.7 million, the state’s BEAD funding allocation, to expand high-speed Internet access that will enable the provision of voice services (as well as many other broadband-enabled applications) to more than 50,000

²⁷ In 2013, the Kansas legislature eliminated the state carrier of last resort (COLR) obligations on electing carriers, when it determined that electing carriers would no longer receive high-cost support from the Kansas Universal Service Fund. *See* K.S.A. 66-2008(c)(5); 66-2009(a).

²⁸ Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996).

²⁹ Infrastructure, Investment and Jobs Act, Public Law No. 117-58, 135 Stat. 429 (2021).

locations in Kansas.³⁰ BEAD recipients are not required to become ETCs.³¹

18. More than a decade ago, the FCC recognized that price-cap ILECs, like AT&T Kansas, should be relieved of legacy voice telephony service obligations where they no longer receive high-cost support so that ILECs can reallocate resources from legacy voice services towards broadband investment and compete on more equal regulatory footing with competitors.³² Therefore, the FCC concluded that it was in the public interest to forbear from the federal high-cost ETC requirement for price-cap ILECs, like AT&T Kansas, to offer voice telephony service in certain areas. Specifically, the FCC forbore:

from enforcing a federal high-cost requirement that price cap carriers offer voice telephony service areas pursuant to section 214(e)(1)(A) in three types of geographic areas: (1) census blocks that are determined to be low-cost, (2) all census blocks served by an unsubsidized competitor, as defined in our rules, offering voice and broadband speeds of 10/1 Mbps to all eligible locations, and (3) census blocks where a subsidized competitor – i.e., another ETC – is receiving federal high-cost support to deploy modern networks capable of providing voice and broadband to fixed locations.³³

³⁰ See *Broadband Equity Access and Deployment (BEAD)*, Kan. Com., <https://www.kansascommerce.gov/officeofbroadbanddevelopment/broadband-equity-access-and-deployment/> (last visited Mar. 24, 2025) (explaining that Kansas has been allocated \$451 million dollars for over 50,000 eligible locations). Serviceable locations within CBs that already have at least 100/20 Mbps broadband service may not, by themselves, receive BEAD funding since they are not considered unserved or underserved locations under the BEAD funding framework. See Nat'l Telecomms. & Info. Admin., U.S. Dep't of Com., *Notice of Funding Opportunity 7* (2022) ("BEAD NOFO"), <https://broadbandusa.ntia.doc.gov/sites/default/files/2022-05/BEAD%20NOFO.pdf> ("The Program's principal focus will be on deploying broadband service to *unserved* locations (those without any broadband service at all or with broadband service offering speeds below 25 megabits per second (Mbps) downstream/3 Mbps upstream) and *underserved* locations (those without broadband service offering speeds of 100 Mbps downstream/20 Mbps upstream).").

³¹ See BEAD NOFO at 71–75 (having an ETC designation is not one of the eligibility requirements for BEAD funding recipients).

³² *December 2014 Connect America Fund Order*, 29 FCC Rcd. at 15668–69 ¶¶ 65–66 ("Price cap carriers ... will no longer be required to spend their resources on maintaining existing voice telephony services or deploying new infrastructure to offer voice telephony service in newly constructed homes where there are already reasonable substitutes. Instead, price cap carriers can reallocate their resources towards making upgrades to their networks to meet the broadband needs of their existing or new customers. We also find that limited forbearance from section 214(e)(1)(A) will promote competitive market conditions by giving price cap carriers the flexibility to compete on a more equal regulatory footing in the voice telephony market with competitors that already have the opportunity to make business decisions about how best to offer voice telephony service." (footnote omitted)).

³³ *Id.* at 15663 ¶ 51 (footnotes omitted).

In those service areas where carriers could avail themselves of this voice forbearance, they remain obligated to both “maintain existing voice service unless and until they receive authority under section 214(a) to discontinue that service” and “offer Lifeline service to qualifying low-income households throughout their service territory.”³⁴ The FCC has concluded that where the three-prong test is satisfied, the high-cost/Lifeline ETC essentially becomes a Lifeline-only ETC.³⁵

19. In 2016, the FCC further considered the question of forbearance in the context of Lifeline voice service.³⁶ In that instance, the FCC granted to high-cost/Lifeline ETCs, such as AT&T Kansas, conditional forbearance:

from the obligation to offer and advertise Lifeline voice service where the following conditions are met: (a) 51 percent of Lifeline subscribers in a county are obtaining BIAS; (b) there are at least three other providers of Lifeline BIAS that each serve at least five percent of the Lifeline broadband providers in that county; and (c) the ETC does not actually receive federal high-cost universal service support.³⁷

20. Annually, the FCC’s Wireline Competition Bureau (the “Bureau”) is charged with announcing the Kansas counties in which conditional forbearance from the obligation to offer Lifeline-supported voice service applies.³⁸ In August 2024, the Bureau announced that the conditions for forbearance from the Lifeline voice obligation for high-cost ETCs

was met in 81 of Kansas' 105 counties.³⁹

21. The FCC forbearance decisions provide further support that AT&T Kansas should be permitted to relinquish its ETC designation in the Relinquishment Area.

III. AT&T KANSAS IS ENTITLED TO RELINQUISH ITS ETC DESIGNATION

22. AT&T Kansas meets the legal standard for relinquishing its ETC designation because each CB in the Relinquishment Area is served by at least one other designated ETC, and by this filing the company is providing advance notice to the Commission that it is relinquishing its ETC status in the subject CBs. These facts alone establish that AT&T Kansas meets the legal standard under federal law for relinquishment.

23. In addition, the Commission should have no concerns that any consumer will be without telephone service upon AT&T Kansas' ETC relinquishment. The 1,289 CBs in the Relinquishment Area are sparsely populated. Where there are people to serve, in addition to the ETCs other than AT&T Kansas serving these areas, non-ETC facilities-based fixed and mobile providers are broadly available, and future funding will ensure additional facilities-based service to consumers. With these attractive alternatives available to consumers, there is little demand for AT&T Kansas' voice telephone service today. Nonetheless, approval of this Petition will not authorize AT&T Kansas to discontinue any legacy voice service.

24. For each of the 1,289 CBs in the Relinquishment Area, **Exhibit B**, attached hereto, and made a part hereof by this reference, provides a list of the alternative ETCs that

serve the area,⁴⁰ the non-ETC facilities-based alternative providers that serve the area, the number of serviceable locations,⁴¹ and the population. **Exhibit C**, attached hereto, and made a part hereof by this reference, is a confidential exhibit that contains, in addition to all of the information in Exhibit B, the number of AT&T Kansas' residential POTS customers in the CBs.

25. As described in **Exhibit D**, attached hereto, and made a part hereof by this reference, 1,280 CBs – more than 99 percent of the CBs in the Relinquishment Area – have 6 or more alternative ETCs other than AT&T Kansas. To the best of AT&T Kansas' knowledge and belief each of those entities remains a designated ETC in those CBs in the relinquishment area as of the date of this Petition.

26. In many of the CBs in the Relinquishment Area, there are no people to serve. Specifically, AT&T Kansas analyzed the FCC's National Broadband Map to identify serviceable mass market locations in each CB in the Relinquishment Area. As demonstrated in **Exhibits E and F**, attached hereto, and made part hereof by this reference, in 65 CBs – 5 percent of the CBs in the Relinquishment Area, there are *no serviceable locations*.

27. In CBs in the Relinquishment Area where there are people to serve, in addition to the ETCs other than AT&T Kansas, non-ETC facilities-based fixed and mobile providers offer service to consumers. As demonstrated in **Exhibit G**, attached hereto, and made part hereof by this reference, of the 1,224 CBs in the Relinquishment Area with at least one serviceable location, 1,223 CBs – more than 99.9 percent – have at least one

⁴⁰ As noted in Exhibit B, the analysis of alternative ETCs includes four providers with pending petitions for ETC designations (or expanded designated areas).

⁴¹ For purposes of the analysis presented in this filing, AT&T analyzed the FCC's National Broadband Map to identify serviceable mass market locations in each of the 1,289 CBs.

facilities-based alternative to AT&T Kansas. BEAD funding will lead to future facilities-based alternatives in these areas.⁴² **Exhibit H**, attached hereto, and made part hereof by this reference, contains a list of 382 CBs – nearly 30 percent of the CBs in the Relinquishment Area – for which all serviceable locations in the CB are eligible for BEAD funding.⁴³

28. There is little demand for AT&T Kansas’ legacy voice service today. As demonstrated in **Exhibits E and I**, attached hereto, and made part hereof by this reference, AT&T Kansas does not have any residential POTS customers in 1,127 CBs – more than 87 percent of the CBs in the Relinquishment Area.

29. Finally, as discussed above, AT&T Kansas is entitled to forbearance from its voice telephony service obligations in 58 CBs – approximately 5 percent of the CBs in the Relinquishment Area. Likewise, AT&T Kansas has conditional forbearance from its Lifeline voice telephone obligations in 1,248 CBs – nearly 97 percent of the CBs in the Relinquishment Area. **Exhibits J and K**, attached hereto, and made a part hereof by this reference, respectively list each of the CBs subject to these FCC forbearance decisions.⁴⁴

30. In all events, after the Commission grants AT&T Kansas’ Petition, AT&T Kansas will continue to provide its services to customers throughout the Relinquishment Area, including low-income customers. The only change will be that the current federally supported Lifeline-discount of \$5.25 will no longer be available from AT&T Kansas in the Relinquishment Area. AT&T Kansas’ current Lifeline customers can continue to receive the Lifeline discount from another ETC. As of the date of this Petition, AT&T Kansas has only

one (1) Lifeline customer within the Relinquishment Area. On the other hand, as of December 1, 2024, the Universal Service Administrative Company (“USAC”) reported that 20,238 Kansas consumers received the federally supported Lifeline benefit.⁴⁵ Allowing AT&T Kansas to relinquish its ETC designation will have no impact on the overwhelming majority of eligible consumers because they already have opted to receive federally supported Lifeline service from ETCs other than AT&T Kansas.

31. The FCC has for years recognized that ETC designations of AT&T Kansas’ vintage are simply not as “nuanced” as those available to carriers seeking designation today.⁴⁶ AT&T Kansas submits that those “nuances” are important and must be accounted for by the Commission in its consideration of this Petition as AT&T Kansas seeks to transform its antiquated, legacy copper network to provide the modern broadband services Kansans want and demand today. As the FCC has long recognized, grant of the Petition will allow AT&T Kansas to reallocate investment and more effectively compete with carriers not subject to ETC obligations.⁴⁷

32. In summary, relinquishment is AT&T Kansas’ right under federal law because the CBs in the Relinquishment Area are served by at least one ETC other than AT&T Kansas. To be clear, ***by this Petition affecting 1,289 CBs, AT&T Kansas is not discontinuing any legacy voice service, and this filing will not authorize AT&T Kansas to***

⁴⁶ 2016 Lifeline Order, 31 FCC Rcd at 4083 ¶ 336 (“When existing High-Cost/Lifeline ETCs were designated, the designations broadly encompassed both high-cost and Lifeline voice-mechanisms by default, consistent with the Commission’s policy intent at the time—which we now depart from in certain respects, as described in this Order—and *without the type of more nuanced designations that are feasible under our current interpretation and implementation of sections 214(e) and 254* (emphasis added)).

withdraw any of its underlying legacy voice services. AT&T will continue to offer and provide legacy voice service in the affected 1,289 CBs and will continue to comply with applicable service obligations of federal and state law in its service territory, unless and until it separately obtains any necessary permission to stop providing retail legacy voice service.

IV. CUSTOMER NOTIFICATION OF TERMINATION OF LIFELINE DISCOUNT AND ETC RELINQUISHMENT

33. AT&T Kansas will ensure that its Lifeline customers receive ample notice of their option to select another ETC to continue receiving the Lifeline discount. Specifically, at least 60 days prior to the relinquishment effective date, AT&T will provide notice in a separate letter sent via U.S. Mail to its affected Lifeline customers explaining that: (1) AT&T will no longer offer the federal Lifeline discount; and, (2) if the customers do not choose another provider, AT&T will continue to provide service at AT&T's standard prices (including applicable surcharges, fees, and taxes) after the effective date of the relinquishment. AT&T also will send the affected Lifeline customers a second notice letter and a bill message at least 15 days prior to the relinquishment date. All notices will: inform the affected customers that they can contact the remaining ETCs in the area to discuss Lifeline benefits that may be offered by those ETCs; and inform the affected customers how to contact USAC to obtain a list of other ETCs in the state and answer general questions about Lifeline. **Exhibit L**, attached hereto and made a part hereof by this reference, is a sample of the language of this letter.

34. To avoid customer confusion and to assist with a smooth transition process, AT&T Kansas will stop enrolling customers in the Relinquishment Area in the federal Lifeline program on October 1, 2025, or five (5) days after the Commission issues an Order, whichever is later. This approach, which is consistent with the approach taken in Docket

Nos. 17-SWBT-158-MIS and 24-SWBT-318-MIS, will ensure that a newly enrolled Lifeline customer with AT&T Kansas will not need to change to another Lifeline provider shortly after the customer enrolls, thus minimizing customer inconvenience and confusion.

V. RELIEF REQUESTED

WHEREFORE, for the above and foregoing reasons, AT&T Kansas respectfully requests an Order of the Commission on or before October 1, 2025, granting its Petition herein and confirming AT&T Kansas' relinquishment of its ETC designation in the specified census blocks effective December 1, 2025.

Respectfully submitted,

Notes:

(*) Some of the non-ETC facilities-based providers are affiliated with ETCs (e.g., Verizon and TracFone, T-Mobile and Assurance Wireless, United Wireless Communications, and Rainbow Communications). Excludes satellite and AT&T DSL.

An alternative provider is listed only if it services at least 99.9% of FCC serviceable locations in that census block.

A provider is only listed once if it offers service using multiple different technologies to a given census block.

When there are no serviceable locations, the number of non-ETC facilities-based alternative providers is listed as "N/A".

2020 population estimates are assigned to 2010 census blocks in proportion to area overlaps between 2010 and 2020 census blocks reported in the 2010-2020 census block relationship file from the Census Bureau.

Sources: Census TIGER/Line data, FCC Broadband Data Collection data as of June 2024, CostQuest Commercial Fabric License data as of June 2024, AT&T POTS data as of February 2025.

Notes: Excludes satellite providers and AT&T DSL. A provider is only counted once if it offers service using multiple different technologies to a given census block.

An alternative provider is listed only if it serves at least 99.9% of FCC serviceable locations in that census block.

Presence of non-ETC facilities-based alternative providers is not evaluated in census blocks without any serviceable locations.

2020 population estimates are assigned to 2010 census blocks in proportion to area overlaps between 2010 and 2020 census blocks reported in the 2010-2020 census block relationship file from the Census Bureau.
